

Ordering Packing and Logistics Guide

Shaanxi Jiade Group Co Ltd — lead times, minimum quantities, packing and payment terms.

This guide collects the commercial terms published across the product range so a buyer can plan an order without a further exchange. Where a term applies to one programme only, that programme is named.

Lead Times

Stock fittings	7 days
Non stock fittings	15 days
Reducers and made to order sheet	15 to 20 days according to order quantity
304 sheet	7 days after receipt of the deposit
Monel K500 from stock	About 7 to 10 days
TP347 seamless pipe and SS316 angle bar	7 to 20 days after order confirmation

Minimum Order Quantities

304 sheet	1 ton per specification
316L bar	1000 kg
Other items	Quoted against size, grade and quantity

Packing

Butt weld fittings	Wooden case, pallet or as customer requested
Pipe	Woven bags and wooden cases
Polished and mirror sheet	Plastic protective film
Plate	Stacked on timber skids and strapped
Reducers	Woven bags

Shipping and Payment

Loading port	Shanghai
Shipping modes	FCL, LCL and bulk sea freight; bar also by air, express, rail or road
Payment terms	30 percent T/T in advance with the 70 percent balance before delivery (fittings programme)
Documents	Mill test certificate with every heat; EN 10204 3.1 and third party inspection reports on request

How to Place an Order

- Send the grade, size, wall or thickness, quantity and destination port over WhatsApp or email.
- Confirm the surface condition, the tolerance and the certificate level on the quotation.
- Approve the quotation and pay the deposit to release production.
- Nominate a third party inspector if the project requires one, before release.
- Receive the certificate file with the shipping documents at loading.
