Polyester Sewing Thread

8 items in this line

100% Polyester Sewing Thread 200 Grams

A 40S/2 spun polyester sewing thread wound to a net weight of 50 grams on a heavy 60 gram cone, packed 12 cones per box and 10 boxes per carton. It is designed for consistent performance in high-speed lockstitch machines used in thobe, abaya, shirt and uniform production.

Material	100% spun polyester
Count	40S/2
Net Thread Weight	50 g per cone
Cone Weight	60 g
Packing	12 cones per box, 10 boxes per carton
Cone Type	Heavy-duty paper cone
Colours	All available, including bluish white, jet black, 3336, etc.

100% Polyester Sewing Thread 4000 YDS

It is used for high-speed lockstitch production in thobe, abaya, shirt and uniform manufacturing.

Material	100% spun polyester
Length	4000 yards per cone
Cone Weight	12 g
Packing	1 doz/box, 10 boxes/ctn
Cone Type	Normal Cone

100% Polyester Sewing Thread 40/2 X 3000 Yards

A 40S/2 spun polyester sewing thread wound to an exact 3000 yards per cone, made in our own thread factory in Yiwu. It is the standard closing and topstitching thread for thobe, abaya, shirt and uniform lines that run high-speed lockstitch machines all day. Net thread weight is 84 g per cone with a 12 g cone, so 96 g gross gives you a predictable carton weight when you cost the freight.

Material	100% spun polyester
Count	40S/2
Length	3000 yards per cone
Thread Net Weight	84 g per cone
Cone Weight	12 g
Gross Weight	96 g per piece
MOQ	15 KG per colour

100% Polyester Sewing Thread 950 YDS

A 40S/2 spun polyester sewing thread wound to an exact 950 yards per cone, made in our own thread factory in Yiwu. It is designed for short-run production lines, embroidery setups, and small batch garment assembly where a compact cone size reduces storage space and handling time. Packing is 12 cones per box and 10 boxes per carton for easy handling and inventory tracking.

Material	100% spun polyester
Count	40S/2
Length	950 yards per cone
Thread Net Weight	25 g per cone
Cone Weight	65 g
Packing	12 cones per box, 10 boxes per carton
Colours	All colours available

100% Polyester Yarn 32S/1 400G

A 32S/1 single-ply spun polyester yarn wound to a net weight of 400 grams per big paper cone, made in our own thread factory in Yiwu. It is used for embroidery, decorative stitching, and lightweight sewing applications where a smooth, consistent yarn is needed.

Material	100% spun polyester
Count	32S/1
Net Weight	400 g per cone
Cone Weight	50 g
Packing	30 pcs per carton
Colours	All colours available

Polyester Sewing Thread 20S/2 x 2370 Yards

A 20S/2 spun polyester sewing thread wound to an exact 2370 yards per cone, made in our own thread factory in Yiwu. It is the standard thread for heavy-duty closing and topstitching on uniform trousers, workwear, and thick fabric garments that run at high speed. Net thread weight is 132 g per cone with a 12 g cone, so 144 g gross gives a consistent carton weight for freight costing.

Material	100% spun polyester
Count	20S/2
Length	2370 yards per cone
Thread Net Weight	132 g per cone
Cone Weight	12 g
Gross Weight	144 g per piece
MOQ	25 KG per colour

100% Polyester Sewing Thread 40/2 X 5000 Yards

A 40S/2 spun polyester sewing thread wound to an exact 5000 yards per cone, made in our own thread factory in Yiwu. It is designed for high-speed lockstitch lines in thobe, abaya, shirt, and uniform production where long uninterrupted runs are required. Net thread weight is 140 g per cone with a 12 g cone, so 152 g gross gives a consistent carton weight for freight costing.

Material	100% spun polyester
Count	40S/2
Length	5000 yards per cone
Thread Net Weight	140 g per cone
Cone Weight	12 g
Gross Weight	152 g per piece
MOQ	15 KG per colour

100% Polyester Sewing Thread 20S/2

A 20S/2 spun polyester sewing thread wound to a net weight of 132 g per cone, made in our own thread factory in Yiwu. It is the standard thread for heavy-duty stitching on uniform trousers, workwear, and thobe construction where strength and durability are required. This consistent weight and packing structure supports accurate freight costing and inventory planning.

Material	100% spun polyester
Count	20S/2
Net Weight	132 g per cone
Cone Weight	12 g
Cone Type	Dark blue bullet head
Packing	80 pcs per carton

Rayon Embroidery Thread

2 items in this line

100% Rayon Embroidery Thread 120D/2 125G

A 120D/2 two-ply rayon embroidery thread wound to 125 grams per spool, packed in 1 dozen per box and 10 boxes per carton. It is used for decorative stitching on thobes, abayas, uniforms, and formal wear where a soft sheen and smooth finish are required. The 125 g spool weight allows consistent costing per order and stable carton weight for freight planning.

Material	100% rayon
Type	Embroidery thread
Count	120D/2
Weight	125 g per spool
Packing	1 dozen per box, 10 boxes per carton

100% Rayon Embroidery Thread 450D/1 400G

A 450D/1 single-ply rayon embroidery thread wound to a 400 gram paper cone, packed 24 cones per carton. It is used for high-contrast decorative stitching on thobes, abayas, and formal garments where a soft sheen and smooth finish are required. The 400 gram cone weight allows for longer run times between cone changes on embroidery machines, reducing downtime in continuous production.

Material	100% rayon
Type	Embroidery thread
Count	450D/1
Cone Weight	400 g
Packing	24 pcs per carton
Cone Type	Paper cone
Available Counts	450D/1, 300D/1, 600D/1

Cotton Embroidery Thread

1 items in this line

Cotton Embroidery Thread 9S/2

A 9S/2 single-ply cotton embroidery thread wound to 10 grams per ball, packed 10 balls per box and 100 boxes per carton. It is used for detailed embroidery on thobes, abayas, uniforms, and formal wear where a natural fibre hand and consistent colour are required. Each box contains one solid colour only, with no mixed colours allowed in a single box.

Material	100% cotton
Count	9S/2
Weight	10 grams per ball
Packing	10 balls per box, 100 boxes per carton
Colour	All colours available, one colour per box
Mixed Colour Packing	Not available

Invisible Nylon Thread

2 items in this line

Invisible Nylon Thread (Mono Filament) 0.14mm * 10000 yds

A 0.14mm diameter mono filament nylon thread wound to 10000 yards per spool, available in white, black, and other colours. It is designed for invisible stitching in garments where thread visibility must be eliminated. Packing is 12 spools per box and 5 boxes per carton, suitable for consistent handling and shipping. The thread is made to a fixed length and diameter to support repeatable stitching performance across p

Polyester Twine

1 items in this line

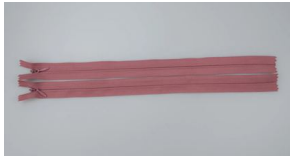

Polyester Twine (High Resistance Thread)

A high resistance polyester twine made in China for industrial use in the Gulf region. It is available in multiple ply counts from 210D/2 to 210D/36, wound to a consistent 50 grams of thread per cone with a 30 gram cone. Packing is 24 cones per box and 10 boxes per carton. All colours are available on request. The twine is used for heavy-duty applications where strength and durability are required under tension.

Ply Count	210D/2 to 210D/36
Thread Net Weight	50 g per cone
Cone Weight	30 g
Packing	24 cones per box, 10 boxes per carton
Colours	All colours available

Zippers and Buttons

14 items in this line

No.3 Invisible Zipper

A No.3 invisible zipper with fabric tape, close end, auto lock, and water drop slider. Available in standard lengths of 20CM, 30CM, and 50CM. Packed at 100 pieces per bag, with 25 to 50 bags per carton. Made for use in thobe, abaya, and formal garment construction where a seamless, invisible closure is required. The auto lock feature ensures the zipper stays closed during wear and handling.

Size	No.3
Type	Invisible zipper
End Type	Close end
Lock Type	Auto lock
Slider	Water drop
Length Options	20CM, 30CM, 50CM
Packing	100 pcs/bag, 25 to 50 bags/ctn

3# LFC Zipper

A 3# LFC zipper with fabric tape and close end, featuring a pin lock mechanism. Available in 20cm, 30cm, and 50cm lengths with all colours. Packed at 100 pieces per bag for easy handling and counting. Made to support high-volume garment assembly lines in thobe, abaya, and uniform production where consistent closure performance is required.

Size	20cm / 30cm / 50cm
Type	LFC Zipper
End Type	Close End
Locking Mechanism	Pin Lock
Packing	100 pcs per bag
Colour Availability	All colours available

3# Nylon Zipper with Line, 4 cords

A 3# nylon zipper with four cords, fabric tape, close end, and auto lock. Available in 20cm, 30cm, and 50cm lengths. All colours are available. Packed at 100 pieces per bag for consistent handling and counting. Made to support high-volume garment assembly in thobe, abaya, and uniform production lines.

Size	3#
Material	Nylon
Cords	4
End Type	Close End
Lock Type	Auto Lock
Length Options	20cm, 30cm, 50cm
Packing	100 pcs per bag

5# Nylon Zipper with Gold/Silver Fabric & Teeth

A 5# nylon zipper with gold or silver fabric tape and teeth, open end with auto lock mechanism and decorative slider. Available in lengths from 20cm to 150cm. Packed 50 pieces per bag. Used in thobe, abaya, and formal wear where visible zippers need a consistent metallic finish and reliable closure under daily wear.

Size	5#
Material	Nylon
Fabric Tape Colour	Gold or Silver
Teeth Colour	Gold or Silver
End Type	Open End
Lock Mechanism	Auto Lock
Slider Type	Decorative

5# Resin Zipper

A 5# resin zipper with open end and auto lock, made from plastic material, available in lengths from 20cm to 150cm. It features a ring, bend, or decoration slider and is designed for use in abaya construction. Each bag contains 12 pieces, packed for direct shipment. The zipper is suitable for high-volume production lines where consistent performance and colour matching are required.

Size	5#
Material	Resin or Plastic
Length	20cm to 150cm
End Type	Open end
Lock Type	Auto lock
Slider Type	Ring / Bend / Decoration
Packing	12 pcs per bag

Original YKK Brand 2# Invisible Zipper, Lace Tape

Original YKK 2# invisible zipper with lace tape, close end, auto lock, and water drop slider. Made in China to Japanese quality standards. Available in 20CM, 30CM, and 50CM lengths. Packed 50 pieces per bag, 40 bags per carton. MOQ is 100 pieces per colour. Used by customers as a direct replacement for lower-grade Chinese 3# invisible zippers.

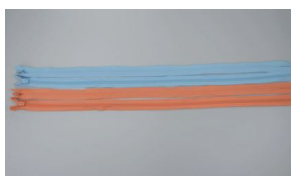

Brand	Original YKK
Size	2#
Type	Invisible zipper with lace tape

Resin Button Single Hole 24L

Resin button with single hole, size 24L, made from durable resin material. Available in all colours and sizes. Suitable for use in thobe, abaya, shirt and uniform production where a consistent button appearance and reliable fastening are required.

Material	Resin
Hole Type	Single hole
Size	24L
Available	All colours and sizes

Uniform Plastic Buckle

A 58mm plastic buckle designed for use in Saudi army, police, and security uniforms. Made in China and supplied in black, khaki, and other available colours. Each bag contains 50 pieces, packed for direct shipment to Gulf-based uniform manufacturers and accessory suppliers.

Size	58mm
Material	Plastic
Colour	Black, Khaki, and other colours available
Packing	50 pcs per bag

5# Nylon Zipper

A 5# nylon zipper with open end and auto lock, used primarily for abaya construction. Fabric tape is standard, with decoration slider included. Available in lengths from 35cm to 150cm. Packed 12 pieces per bag, suitable for bulk handling and mixed-line consolidation. Made to support high-volume garment assembly in the Gulf region.

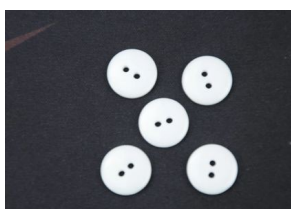

Size	5#
Material	Nylon
Type	Open end, Auto lock
Slider	Decoration
Length Range	35cm to 150cm
Packing	12 pcs per bag
Style	O/E

Thobe Button TPS-01

A 22L size button designed for thobe garments, available in multiple sizes. Made for durability and consistent appearance in high-volume thobe production. The button is suitable for standard buttonhole stitching and maintains shape under repeated wear and washing.

Size	22L (other sizes available)
Material	Not specified in facts
Colour	Not specified in facts
Shape	Not specified in facts
Hole Type	Not specified in facts

Shirt Buttons 0310-2224

Resin shirt buttons in size 22L with two holes, designed for thobes and formal shirts. Available in Bluish White, Off White, and other colours. The Bluish White shade maintains a consistent tone without greenish tinge. Shining finish provides a clean, attractive appearance on finished garments. Buttons are sourced and consolidated for export to the Gulf region.

Material	Resin
Size	22L
Holes	2
Finish	Shining
Colour	Bluish White, Off White, and other colours available
Application	Thobe, Shirt, Formal Garments

Lace and Trimming

13 items in this line

Decoration Trimming Lace 209#

A polyester decoration trimming lace with a white tape base and gold yarn edge, wound to 36 yards per card and packed 100 cards per carton. It is used for decorative stitching on thobes, abayas, uniforms, and formal garments where a subtle metallic accent is needed without bulk. The consistent colour and edge definition allow for repeatable results across production runs.

Material	Polyester
Base	White tape
Edge	Gold yarn
Length per Card	36 yards
Cards per Carton	100
Packing	36 yards/card, 100 cards/ctn

Decoration Trimming Lace 215#

A 11mm wide gold polyester decoration trimming lace, all gold colour, designed for abaya embellishment. It is packed in 18 or 36 yards per card, with 100 cards per carton. The lace is made for decorative use and does not carry structural function. It is suitable for hand or machine application in high-volume abaya production lines.

Width	11mm
Colour	All gold
Material	Polyester
Packing	18 or 36 yards per card, 100 cards per carton
Use	Decoration for abaya

Decoration Trimming Lace 212# Black + Gold

A 212# polyester lace trimming with a black ribbon base and gold edge, wound to 36 yards per card and packed 100 cards per carton. It is used for decorative finishing on thobes, abayas, uniforms, and formal garments where a bold contrast between black and gold is required. The consistent colour and edge definition help maintain visual alignment across multiple units in a production run.

Material	Polyester
Item Number	212#
Color	Black ribbon + Gold edge
Length per Card	36 yards
Cards per Carton	100
Packing	36 yards/card, 100 cards/ctn

Decoration Rope

A 13MM wide golden or silver decoration rope wound to 20 yards per card, used for embellishing thobes, abayas, uniforms, and formal wear. The rope is designed for hand or machine application in decorative stitching, trim application, and accent detailing. Each card contains a single continuous length of 20 yards, making it easy to manage during production. The card packaging allows for clear colour identification and

Width	13MM
Length	20 yards per card
Finish	Gold, Silver
Application	Hand or machine decoration
Packaging	Card per unit

Glass Beads Lace 3#

A 3# glass bead lace with a consistent bead spacing and a flat, stable weave. It is used for decorative trims on thobes, abayas, and formal wear where a subtle but visible bead detail is required. It is made in our own factory in Yiwu and dyed to colour card for repeat order consistency.

Bead Size	3#
Construction	Flat weave
Material	Glass beads on polyester base
Dyeing	To colour card
Packing	Custom carton count and marks

Glass Beads Lace 4#

A 4# glass bead lace with small, uniform beads spaced evenly along a flexible base. It is used for decorative trim on thobes, abayas, and formal wear where a subtle shimmer is needed without bulk. The lace is supplied in continuous rolls, cut to your required length per order. It is suitable for hand or machine application in high-speed embroidery and trimming lines.

Bead Size	4#
Bead Material	Glass
Base Material	Flexible textile base
Spacing	Evenly spaced
Format	Continuous roll
Cutting	Custom length per order

Glass Beads Lace 2#

A black lace trim with small glass beads woven into the fabric, designed for decorative use on thobes, abayas, and formal garments. The bead spacing is consistent across the width, and the lace is supplied in continuous rolls for cutting to length. It is suitable for hand or machine application in high-volume production environments.

Material	Lace with glass beads
Colour	Black
Type	Lace 2#
Bead Size	Small
Bead Material	Glass
Construction	Woven with beads integrated into the fabric
Roll Format	Continuous roll

Glass Beads Lace 6#

A 6# glass bead lace with a consistent bead size and spacing, used for decorative trim on thobes, abayas, and formal wear. It is dyed to match standard colour cards and is suitable for hand or machine application in high-volume garment production.

Bead Size	6#
Construction	Woven lace with glass beads
Material	Glass beads and polyester base fabric
Roll Format	Continuous roll
Dyeing	To standard colour card

Glass Beads Lace 9#

A 9mm wide glass bead lace with a consistent bead spacing and a flexible base, used for decorative trims on thobes, abayas, and formal wear. The lace is made with a stable weave that holds the beads in place during sewing and handling. It is supplied in continuous rolls for easy integration into production lines.

Width	9mm
Bead Type	Glass
Base Material	Woven fabric
Format	Continuous roll
Bead Spacing	Consistent
Construction	Stable weave with fixed beads

Glass Beads Lace 8#

A 8# glass bead lace with small round beads spaced evenly along a flexible satin base. It is used for decorative stitching on thobes, abayas, and formal wear where a subtle shimmer is needed without bulk. It is made in our own factory in Yiwu and dyed to colour card before winding.

Size	8#
Bead Type	Small round glass beads
Base Material	Satin
Core	Cardboard
Packing	According to customer requirement

Glass Beads Lace 5#

A 5mm glass bead lace with a consistent bead spacing and a flat, stable weave, used for decorative trim on thobes, abayas, and formal wear. The lace is supplied in continuous rolls, with each roll wound to a standard length that supports high-speed sewing and consistent placement on garment edges. It is made in our own factory in Yiwu and dyed to colour card before winding.

Bead Size	5mm
Bead Type	Glass
Weave	Flat, stable
Construction	Continuous roll
Dyeing	To colour card
Factory	Yiwu, China

Glass Beads Lace 7#

A 7# glass bead lace with a consistent bead spacing and even tension, made for decorative stitching on thobe, abaya, and formal wear. The lace is supplied in continuous rolls with a fixed width and is designed to hold its shape during high-speed embroidery and hand-stitching applications. It is suitable for use in both industrial and workshop environments where a precise, repeatable bead pattern is required.

Type	Glass Beads Lace 7#
Bead Material	Glass
Lace Width	Fixed width
Roll Length	Standard length
Tension	Even and consistent
Use	Embroidery and hand-stitching

Glass Beads Lace 1#

A black lace trim with glass beads woven into the fabric, designed for decorative stitching on thobes, abayas, and formal garments. The bead pattern is consistent across the roll and the lace is stable under high-speed sewing. The beads are fixed in place and do not shed during handling or stitching.

Material	Lace with glass beads
Colour	Black
Bead Type	Glass
Fixation	Fixed in place, no shedding
Stability	Does not stretch or curl during sewing

Metallic Yarn

4 items in this line

Metallic Yarn MS Style MS39

Metallic yarn MS39 in 150D/1 construction, wound to 100 g net weight with a 55 g cone, packed 50 pieces per inner box and 100 pieces per carton. It is used for decorative stitching and embellishment on thobes, abayas, uniforms, and formal wear where a reflective metallic finish is required. The consistent cone weight and net yarn weight allow for accurate costing and inventory tracking.

Colours	Army Green, White, Black, and all other standard colours available

Uniform Waist Belt

A 57mm wide woven belt used in Saudi army, police and security uniforms. Made from durable woven fabric with consistent width and colour, packed at 50 metres per roll. Designed for high-wear uniform applications where belt integrity and appearance matter over long shifts.

Width	57mm
Length	50m per roll
Construction	Woven
Colour	Black, Dark Khaki, Light Khaki and others
Packing	50m per roll

Non-Woven Interlining

2 items in this line

Hot Fuse Interlining S030

A 23g/m2 non-woven hot fuse interlining with a 100cm width, available in white and packed as 20 yards per roll. It is designed for lightweight stabilisation in thobe, abaya, shirt and uniform construction where a clean, flat finish is needed without bulk. The 20 rolls per carton packing allows for consistent handling and storage during transit and in the production line.

Material	Non-woven with hot fuse adhesive
Weight	23g/m2
Width	100cm
Colour	White
Length per Roll	20 yards
Packing	20 rolls per carton

Non-Woven Interlining 1025HF

Non-woven interlining 1025HF is a lightweight, stable fabric used in embroidery and garment construction, available in 40" and 58" widths with or without adhesive. It comes in 50 yds per roll, 10 rolls per sackbag. The material is designed for use in abaya and thobe production where consistent structure and minimal bulk are required. It supports high-speed embroidery and stitching without puckering or shifting.

Material	Non-woven
Type	Interlining
Application	Embroidery, Abaya, Garment Construction
Width	40" and 58"
Length	50 yds per roll
Packing	10 rolls per sackbag

Woven Interlining

2 items in this line

Black Carbon Horse Tail Interlining

A black woven interlining made from 65% polyester, 23% wool, and 12% cotton, designed for suits and overcoats. It is available in two packing lengths: 50 yards and 20 yards per roll. The fabric has a stable structure and consistent colour, suitable for high-volume garment production in the Gulf market. It is sourced and consolidated by our team in Ningbo, with direct factory access for consistent quality.

Material	65% polyester, 23% wool, 12% cotton
Width	44 inches
Packing	50 yards and 20 yards per roll
Colour	Black
Construction	Woven

Overcoat Woven Interlining

A 60 inch wide woven interlining with PA glue, weighing 140 grams per square meter, available in black, off white, and pure white. Rolls are packed in 55 yards or 20 yards lengths. It is designed for overcoat construction where stable structure and consistent stiffness are required across long production runs. The interlining is made to support high-volume garment assembly without shifting or delamination during pres
