

POF Shrink Film Specification

Five layer biaxial orientation co-extrusion polyolefin shrink film for semi automatic and automatic shrink wrapping systems.

Property	Specification
Product name	POF Shrink Film
Material	POF, five layer biaxial orientation co-extrusion
Thickness	12 mic, 15 mic, 19 mic, 25 mic
Width	100 mm to 2000 mm
Type	Center fold (CF), single wound (SW), POF shrink bags, pre-perforated, micro-perforated
Printing	Available
Machine compatibility	Most shrink wrap equipment, including semi automatic and automatic systems

Film Behaviour

- High clarity, so printed packaging and product colour stay visible through the wrap.
- Excellent shrinkage that is balanced and stable during packaging.
- Does not embrittle at low temperature after shrinking, which suits chilled and frozen distribution.
- Burn through resistance and firm sealing, so the sealing bar does not stop the line.
