

ESSENTIAL OIL EXTRACTION MACHINE

OEM ODM Pure Essential Citronella Oil Distillation Plant

Model HEC20

A 20L steam distillation plant with 4.5kW heating, 0.4m² heating area and 0.75m² condensing area, supplied on an OEM and ODM basis.

Specifications

Model	HEC20
Power	4.5KW (3 phase, 380v/50Hz)
Volume of distillation pot	20L (according to demand of customers)
Heating area of distillation pot	0.4M ²
Condensation area of condenser	0.75M ²
Power of heater	4.5KW

Key Benefits

OEM and ODM supply

The plant is built and supplied on an OEM and ODM basis.

Pot volume to order

20L is the standard, and the pot volume is made according to customer demand.

Balanced heat exchange

0.4m² heating area against 0.75m² of condensing area.

Mid-range footprint

Larger throughput than the 10L plant without the floor area of the 50L.

Technical Features

- 20L distillation pot, volume made to customer demand
- 4.5kW heater, 3 phase 380V 50Hz
- Heating area 0.4m², condensation area 0.75m²
- Steam distillation for grassy, leafy and root material
- OEM and ODM supply

Request a quotation

Send two things and a full specification comes back: the raw material you will process, and the production capacity you need per batch. Machines are supplied from 0.5L to 200L and larger capacity is customised on request. Email info@better-industry.com or call +86-21-60518061.
