

ESSENTIAL OIL EXTRACTION MACHINE

Jasmine Essential Oil Extract Machine 30L

Model EC30 / HEC30

A 30L steam distillation machine with 5.5kW heating, 0.33m² heating area and 0.72m² condensing area, built for jasmine and other delicate flower material.

Specifications

Model	EC30 jasmine essential oil extract machine
Power	5.5KW (3 phase, 380v/50Hz)
Volume of distillation pot	30L (according to demand of customers)
Heating area of distillation pot	0.33M ²
Condensation area of condenser	0.72M ²
Power of heater	5.5KW

Key Benefits

Sized for flower material

A 30L pot suits the low bulk density of flower charges.

Generous condensing area

0.72m² of condensing area for a 30L pot keeps the vapour path cool.

Pot volume to order

The volume of the distillation pot is made according to the demand of the customer.

Standard 380V supply

5.5kW at 3 phase 380V 50Hz.

Technical Features

- Steam distillation for flower and botanical material
- 30L distillation pot, volume made to customer demand
- 5.5kW heater, 3 phase 380V 50Hz
- Heating area 0.33m², condensation area 0.72m²
- Suited to Chinese medicine, health product, cosmetic and food production

Request a quotation

Send two things and a full specification comes back: the raw material you will process, and the production capacity you need per batch. Machines are supplied from 0.5L to 200L and larger capacity is customised on request. Email info@better-industry.com or call +86-21-60518061.
