# NINGER PEST CONTROL

# Rat And Mouse Glue Traps

— PAPER BASE WITH RELEASE PAPER

Rat And Mouse Glue Traps

## Usage:

Tear off the release paper and fold the trap into "house" shape with glue side face up on floors, at wherever mice or any home pests are seen: against baseboards, walls, under sinks, on shelves, in pantries, behind appliances, in damp areas. Check traps daily or when noise is heard. Once the mice or any pests are caught, dispose the trap and replace with a new one.

## RAT AND MOUSE GLUE TRAP PAPER WITH RELEASE PAPER - FOLDING

# Rat And Mouse Glue Traps

— PLASTIC BOARD

## Directions for use:

1. Open slowly with both hands and place it on where rats usually appear, put under sink, back of appliances, garbage areas, dispose of it once catching the rat.
2. Put more traps if the place is rat-infested. Fix it on the floor if necessary.
3. For best results, place some bread crumbs, cheese, fried fish ect. at the center to attract mouse and rats.

Plastic Mouse Snap Trap

# Bait Station

## Directions for use:

1. If using the rods, load the rods with the bait.
2. Simply close the lid, it will lock automatically.
3. Place the stations in locations of the rodent activity. Since rodents travel along walls, place these bait stations with the entry holes close to the wall.
4. Use the key to open the bait station.

### BAIT STATION

| Item No. | Size            | Packing   | Application          |
