LED Chip Selection

We choose CREE, OSRAM, Epistar and other high quality LED chips for the lamp beads of all our products.

Driver And Optics

Full colour lamps use high grey level and high refresh rate driver ICs. High power lamps are supplied with professional lens light distribution.

Quality Control

Our products are produced under a strict quality control system and the defective rate is below 0.2 percent.

Warranty

We offer a 2 to 5 year warranty on our products.

Defect Handling

During the guarantee period we send new lights with a new order for small quantities. For a defective batch we repair and resend, or discuss another solution including recall according to the real situation.

Certification Documents

Certification files for a specific model and destination market are issued on request. Contact us on WhatsApp or by email and state the model and the market.
