

Wodong Product Catalogue

Strainer screens, custom strainers, filter elements and filter media | great-wiremesh.com

Wodong Wire Mesh Products Co., Ltd is a professional manufacturer and exporter of wire mesh and filter products from China. The company weaves its own wire cloth and punches its own perforated sheet, and builds strainer screens, baskets, discs and filter elements from that media. Products are exported to more than 30 countries and regions. All items can be customized according to customer drawings or samples.

Filter Materials

Product	Summary	Material
Stainless Steel Woven Wire Cloth	Rolls and slices from 1 mesh to 635 mesh in 304, 316 and 316L	Stainless Steel 304 / Stainless Steel 316 / Stainless Steel 316L
Dutch Wire Cloth	Plain dutch and twill dutch weave for high pressure filtration	stainless steel 304 / 316 / mild steel
Brass Woven Wire Mesh	H65 H68 H80 brass wire cloth in rolls or slices	brass wire H65, H68, H80
Perforated Metal Sheets	CNC punched sheet from 0.4mm holes up to 1 inch	stainless steel / mild steel / aluminum / nickel / pre-galvanized / copper and brass or other materials as your request
Expanded Screens	Slit and stretched sheet with no material waste	mild steel plate, stainless steel plate, aluminum plate, copper plate, nickel plate

Fluid Strainers & Filters

Product	Summary	Material
Y Strainer Screens	Replacement insert screens for Y type strainers	stainless steel 304 / 316 / 316L
T Strainer Screens	Replacement insert screens for T type strainers	stainless steel 304 / stainless steel 316 / mild steel / other alloys
Strainer Baskets	Replacement baskets for simplex and duplex basket strainers	stainless steel 304 / stainless steel 316 / stainless steel 316L
Temporary Pipeline Strainers	Cone, basket and plate types for start up protection	stainless steel 304 / stainless steel 316
Sanitary Strainer Core	Electropolished 316 cores for sanitary strainers	stainless steel 316
Stainless Steel Restrainer Baskets	316 and 316L baskets in all industry standard sizes	stainless steel 316 and 316L
Stainless Steel Bowl Mesh Filter	Bowl shaped mesh filters from 2 mesh to 635 mesh	stainless steel wire mesh, brass wire mesh
Kettle Tube Screen	Food grade 304 bazooka screens for boil kettles and mash tuns	Stainless steel 304 food grade wire mesh
Grain Filter Basket	Food grade hop and grain baskets built to your drawing	food grade material
Custom Strainer & Filter	If you can draw it we will build it	stainless steel; low carbon steel

Industrial Filters

Product	Summary	Material
Oil Lubrication Disc Filter	Replacement disc filters for vessel diesel engine lubrication	aluminum
Suction Filter Element	In tank and inlet line protection for hydraulic pumps	Fiberglass / Stainless steel
Hydraulic Oil Filter	Replacement hydraulic elements for most brands in the world	Customized to drawing
Stainless Steel Filter Cartridge	Pleated stainless cartridges for high temperature and high flow duty	SS304 / SS316L wire woven cloth, SS304 / SS316L sintered fiber web

Filter Disc

Product	Summary	Material
Wire Mesh Disc	Any shape and size from 3 micron up to 10 mm	stainless steel wire mesh, black wire cloth, galvanized wire mesh, brass wire mesh, dutch wire mesh, perforated screen, plastic mesh, expanded metal, etc
Servo Valve Filter Disc	15.85 x 3 mm discs from 5 to 50 micron	stainless steel wire mesh with brass U-edge

Marine Oil Filters

Product	Summary	Material
Candle Filter Element	Stainless mesh candle inserts for marine diesel systems	Stainless steel wire mesh
Marine Filter Element	Equivalent replacement elements for automatic marine filters	stainless steel

Manufacturing Capability

Welded processing: line welding, spot welding, laser welding, TIG welding, CO2 shielded arc welding. CNC machining centre for precision filter components. OEM service available for customers from different countries.
