LED Flashlights And Bike Lights

Portable task and inspection lighting, including a 365nm UV torch and a rechargeable bike light.

This is a small, deliberate range rather than a catalogue of torches. It covers two jobs that general lighting does not: a 365nm UV flashlight for inspection, curing checks and authentication work, and a 1800 lumen rechargeable bike light built on a 6061-T6 aluminium body with a Cree XM-L T6 plus twin XPE emitter arrangement.
