LED Grow Lights

Adjustable multi-head grow lighting for propagation, indoor growing and plant display.

Horticultural lighting is judged on whether plants respond, and that comes down to spectrum, intensity and photoperiod. The three head grow light provides directional heads that can be aimed at individual plants, a timer for a consistent daily photoperiod, and two power settings so the same unit works for seedlings and for established plants.

Models In This Range

Three Head LED Grow Light With Timer

Input Voltage	AC100-240V
Working Environment	-20 degree - 50 degree
Working Current	300MA
Service Life	50,000 hours
Operating Frequency	50/60 Hz
Light Color	red / blue
Gross Weight	about 700g
Energy Efficient	1 kWh/1,000 hours
Healthy Light	the light does not contain ultraviolet and infrared,no radiation
Green	The light does not contain mercury and lead and other harmful elements, which is conducive to recycling and use
