

Camping Bags and Outdoor Carriers Catalogue

35 models with published specifications, generated from the same data as intmango.com.

Most outdoor bag ranges are assembled from whatever three factories happen to make, so nothing shares a fabric, a colour or a carton size. Mango's camping bag family is built from a shared set of shells, canvas, T/C, cotton, polyester, oxford, TPU, PVC, neoprene and PVC mesh, which means a buyer can run one artwork and one colour across a tote, a cooler and an organiser and have them match on the shelf.
