

Ski Poles and Sports Shafts Catalogue

3 models with published specifications, generated from the same data as intmango.com.

Ski pole buyers are split between two very different needs and normally have to use two suppliers. Racers want carbon with a cork handle that stays grippy in wet gloves. Rental fleets and clubs want 6061 aluminium they can afford to lose. And brands that build their own poles want a bare 7075 T6 shaft they can finish themselves. All three are produced here, to Pantone colour, from 300 pieces.

Aluminum 6061 Racing Ski Pole MW2014

A 6061 aluminium racing ski pole built flexible and light for on-piste skiing and dynamic movement on the slopes, finished by anodising or painting and packaged to the buyer's specification. Aluminium is the tier below carbon, and it is where most club and rental programmes buy.

Material: Aluminum 7075, also accept aluminum 6061, carbon file pole | **Handle:** PP grip | **Strap:** Adjustable length Strap | **Length:** 50-200cm; as your request | **Diameter:** 18-9mm | **Tip:** Steel with pad, basket

Aluminum 7075 Shaft for Bike Polo Pole MW2012

A customised 7075 T6 aluminium shaft made for bike polo mallets, finished by anodising or painting to any Pantone colour. It is supplied as a shaft rather than a finished pole, so a brand can fit its own head and grip, from 300 pieces with a 25-day lead time.

Material: Aluminum 7075, T6 | **Length:** 110cm, 115cm, 120cm or as your request | **Diameter:** 18-9mm / 16-9mm or as your request | **Thickness:** 0.8mm or 1.0mm | **Tip:** with 2x4mm die cut and screw thread inside | **Color:** As your request, Pantone color is acceptable

Cork Handle Carbon Cross Country Ski Pole MW2018

A carbon cross-country racing ski pole with a cork handle, made for Nordic, grass ski and racing use and finished to any Pantone colour. Cork stays warm and grippy when a racer's gloves are wet, which is why it is still specified above synthetic grips at this level.

Material: Carbon, also accept aluminum 6061/7075, carbon file pole | **Handle:** PP + Cork grip | **Strap:** Adjustable length Strap | **Length:** 50-200cm; as your request | **Diameter:** 18-9mm | **Tip:** Steel with pad, basket
