

GAN WALL CHARGER

EU 45W/65W GaN Slim Wall Charger With Foldable Prongs

The EU-plug version of the K26 GaN platform: 45W to 65W in four port configurations, foldable prongs, universal 100-240V input.

Overview

Same electrical platform as the rest of the K26 GaN family, built on a Europlug body. That matters more than it sounds: a charger range sold across Europe needs the plug moulded into the housing, not an adapter clipped on the end, and the foldable prong mechanism has to survive the same bag abuse with a different pin geometry. Four configurations are published, 65W single Type-C, 65W Type-C plus USB-A, 45W dual Type-C and 45W Type-C plus USB-A, all from a 100-240V input.

Key Benefits

- Europlug body rather than an adapter, which is what European retail requires
- Four port configurations from 45W to 65W on one platform
- GaN power stage keeps 65W in a slim, bag-friendly body
- Foldable prongs
- Universal 100-240V input

Technical Features

- GaN power stage
- Input 100-240V ~ 50-60Hz 1.5A

- 65W single Type-C: 5V/3A, 9V/3A, 12V/3A, 15V/3A, 20V/3.25A
- 45W dual Type-C: C1+C2 as PD20W+PD20W
- 45W Type-C plus USB-A: 30W+12W combined
- Foldable EU prongs

Use Guide

- Use the 65W single-C configuration for a laptop at full speed
- Both ports loaded on the 45W dual-C model gives PD20W + PD20W
- USB-A is capped at 12W on every configuration
- Fold the prongs before packing
- For the UK and the US, order the matching plug versions of the same platform

Applications

- European retail and marketplace listings
- Corporate IT standardising one adapter across European offices
- Travel kits sold into EU markets
- Bundles with phones and laptops sold without a charger
