

MAGNETIC WIRELESS POWER BANK

KIKOO Mag Qi2.2 25W Magnetic Power Bank, 10000mAh With PD 45W

The flagship magnetic pack: Qi2.2 at 25W wireless, PD 45W over Type-C and 10000mAh built from two 5000mAh cells. Certified to Qi2.2, CCC, CE RED EMC, FCC, ROHS, IEC62368-1, UL2056 and UN38.3.

Overview

Qi2.2 raises the magnetic power class from 15W to 25W, and this is the pack built around it. Wireless output is 25W maximum with magnetic alignment; the Type-C port runs PD 45W, which is enough for a tablet or a handheld console rather than just a phone. The 10000mAh capacity is assembled from two 5000mAh cells at 7.7V/38.5Wh. The certification list is the longest in the range and includes CCC and CE RED EMC alongside the battery safety set. Housing is aluminium alloy with ABS and PC, offered in black, white, pink, orange and silver grey.

Published Specification

Property	Value
Battery capacity	10000mAh (7.7V/38.5Wh)
Battery chip	5000mAh x 2
Wireless output	25W max (Qi2.2)
Type-C output	5V/3A, 9V/3A, 12V/3A, 15V/3A, 20V/2.25A (45W)
Type-C input	5V/3A, 9V/3A, 12V/2.5A (PD 30W)
Material	Aluminium alloy + ABS + PC
Colour	Black, White, Pink, Orange, Silver Grey
Certification	Qi2.2, CCC, CE RED EMC, FCC, FCC SDOC, ROHS, MSDS, IEC62368-1, UL2056, UN38.3
Warranty	1 year

Rows reading 'not published on the source page' or 'confirmed per order' are figures the factory specification does not publish. They are confirmed in writing rather than estimated.

Key Benefits

- Qi2.2 at 25W is the current top of the magnetic standard; most competing packs are still at 15W
- PD 45W on the cable output covers tablets and handheld gaming devices, not only phones
- 10000mAh at 7.7V/38.5Wh gives a full day of heavy use
- Five colours from one tooling, which is what a retail range needs
- Certification list published in full: Qi2.2, CCC, CE RED EMC, FCC, FCC SDOC, ROHS, MSDS, IEC62368-1, UL2056, UN38.3

Technical Features

- Qi2.2 magnetic wireless charging, 25W maximum
- Type-C output 5V/3A, 9V/3A, 12V/3A, 15V/3A, 20V/2.25A (45W)

- Type-C input 5V/3A, 9V/3A, 12V/2.5A (PD 30W)
- 10000mAh, 7.7V/38.5Wh, built from 2 x 5000mAh cells
- Aluminium alloy with ABS and PC

Use Guide

- For 25W wireless the phone must support the Qi2.2 power class; a Qi2 phone will negotiate 15W
- Use the Type-C port at PD 45W for tablets and consoles
- Recharge the pack at PD 30W through the same port
- Magnetic hold depends on the case; confirm with the case the customer uses
- Shipping documentation: MSDS and UN38.3 travel with the booking

Applications

- iPhone 17, 16, 15, 14, 13 and 12 series over MagSafe
- Samsung Galaxy S25 and Z series, and Google Pixel 10 series, in a magnetic Qi2 ready case
- Handheld gaming consoles charged at PD 45W over the Type-C port
- Retail ranges that need a flagship SKU above a 15W magnetic pack
