

MAGNETIC WIRELESS CHARGER

KIKOO Mag Wireless Charging Stand

A magnetic MagSafe-compatible charging stand that holds the phone upright at a viewing angle while it charges, for a desk or a bedside table.

Overview

A stand rather than a pad, for the situation where the phone is being used while it charges: standby display on a nightstand, video calls at a desk, a recipe on a kitchen counter. The magnetic mount holds the phone at a fixed viewing angle and keeps the charging coil aligned, which is the part a propped-up phone on a flat pad never gets right. The source page publishes this product as a magnetic/MagSafe wireless charging stand and does not publish a wattage, certification list or dimension set, so those are confirmed per order rather than estimated here.

Published Specification

Key Benefits

- Holds the phone at a viewing angle, so it stays usable while charging
- Magnetic mount keeps the coil aligned instead of relying on the user placing it correctly
- Fits the desk and nightstand slots in a magnetic accessory range
- Shares the magnetic platform with the rest of the KIKOO Mag products

Technical Features

- Magnetic / MagSafe compatible mount
- Upright stand geometry with a fixed viewing angle
- Wireless charging through the magnetic coil

Use Guide

- Power from a PD adapter; the exact requirement is confirmed with the specification
- Magnetic hold falls with case thickness, so test with the customer's case
- Place on a hard surface so heat can escape from the base

- Ask for the full specification sheet before committing to a retail listing

Applications

- Nightstand charging with the phone in standby display mode
- Desk charging during video calls
- Kitchen counter use while following a recipe
- Retail ranges that need a stand next to a pad
