

CABLE-INTEGRATED POWER BANK

KIKOO 10000mAh 22.5W Power Bank With Two Built-In Cables

The pocket-sized version of the cable-integrated KIKOO pack: 10000mAh, 22.5W fast charging, built-in Type-C and Lightning cables and a digital percentage display.

Overview

Same electrical design as the 20000mAh pack, half the cell. For most buyers this is the volume SKU: 10000mAh covers a phone for roughly two full charges, it is the capacity that fits comfortably in a jacket pocket, and it is the size that clears airline cabin limits without a conversation. The Type-C and Lightning cables are built into the body, two Type-C ports and one USB-A sit on the edge, and the digital display shows the remaining charge as a number. Housing is ABS+PC with a fireproof V0 rating.

Published Specification

Property	Value
Battery capacity	10000mAh
Fast charging	22.5W
Material	ABS+PC, fireproof (V0)
Display	Digital display
Interface	2 x Type-C / 1 x USB-A
Built-in cable	1 x Type-C / 1 x Lightning
Type-C1 input	5V/2A, 9V/2A, 12V/1.5A
Type-C2 output	5V/3A, 9V/2.22A, 12V/1.67A
USB-A output	5V/3A, 9V/2A, 12V/1.5A
Type-C cable output	5V/3A, 9V/2.22A, 12V/1.67A
Lightning cable output	5V/2.1A
Certification	Confirmed per order; not published on the source page

Rows reading 'not published on the source page' or 'confirmed per order' are figures the factory specification does not publish. They are confirmed in writing rather than estimated.

Key Benefits

- 10000mAh is the capacity band that moves in volume: pocketable, giftable and accepted in cabin baggage without discussion
- Built-in Type-C and Lightning cables mean the pack works even when the customer carries nothing else
- 22.5W fast charging on Type-C2, the Type-C cable and USB-A
- Digital percentage display rather than LED dots
- Shares tooling and electrical design with the 20000mAh version, so a two-SKU range needs one approval cycle

Technical Features

- Two built-in cables: one Type-C, one Lightning
- Three ports: 2 x Type-C, 1 x USB-A
- Type-C1 input 5V/2A, 9V/2A, 12V/1.5A
- Type-C2 output 5V/3A, 9V/2.22A, 12V/1.67A (22.5W)
- USB-A output 5V/3A, 9V/2A, 12V/1.5A
- Digital display showing remaining charge

Use Guide

- Recharge through Type-C1
- Pick the built-in cable that matches the phone; the ports stay free for a second device
- 22.5W needs a source that negotiates 9V
- Do not store the pack fully discharged
- Lithium batteries ship as dangerous goods; confirm the destination before booking freight

Applications

- Everyday carry sold through phone accessory retail
- Conference and trade show giveaways with a printed logo
- Hotel and airline amenity programmes
- Second pack for a household that already owns a larger one
