AMUSEMENT EQUIPMENT

PRODUCT CATALOGUE

BigJoys Amusement Amusement Rides Catalogue

BigJoys makes mechanical amusement rides and soft-play attractions for commercial operators: carousels, pendulums, samba balloons, flying chairs, Ferris wheels, trackless and tracked trains, pedal-powered animal race tracks, bungee trampolines and trailer-mounted soft playgrounds. FRP bodywork over steel structure is the standard construction; trailer units use galvanised tube frames with PE panels.

Zhengzhou BigJoys Amusement Co., Ltd has focused on the production and research of amusement attraction rides since 2009. This catalogue lists every ride model published on www.parkfunrides.com with its category and its summary specification. Where the manufacturer publishes no figure for a field, the entry says so rather than estimating one.
