

RIDE CATEGORY DATASHEET

Farm Fun Rides

Animal-themed race tracks, tractor and digger rides and small train attractions built for farm parks, pumpkin patches and agritourism sites.

What This Category Is For

Farm attractions sell a season, not a year. The equipment has to go in fast, survive a wet autumn, look right beside a barn rather than beside a roller coaster, and ideally run without a generator. That is what this range is: pedal-driven animal races on galvanised powder-coated track, an amusement digger, a farm tractor ride, a chicken run and a mini roller coaster, all themed to livestock and harvest rather than to neon.

Models In This Category

Product	Group	Summary
Trailer Pumpkin Race Rides	Halloween Theme Amusement Rides	Trailer Pumpkin Race Rides offer a unique and enjoyable form of entertainment that is perfect for fall and Halloween events. Why Operators Choose This Range

- Pedal-powered race tracks run with no mains supply
- Galvanised tube with powder coating for outdoor autumn seasons
- Livestock and harvest themes: cow, goat, pig, bee, alpaca, reindeer, pumpkin
- Chicken Run Rides listed at 12 kids capacity over a 50ft x 28ft footprint
- Track length customised to the frontage you actually have

Problems It Solves

- A pumpkin season that needs a paid attraction installed in days, not months
- No three-phase supply anywhere near the field gate
- Rides styled for a theme park that look wrong on a working farm
- Equipment that will not survive being stood outdoors through a wet autumn
- Attractions that only suit one age band, so families split up and leave early

Who It Is For

- Pumpkin patches and pick-your-own farms
- Agritourism and farm park operators
- Petting zoos and rural visitor attractions
- Country show and county fair organisers

Application Scenarios

- Pumpkin patch and Halloween farm seasons
- Harvest festivals and county shows
- Farm park permanent paid-ride areas
- School farm visits and educational days

Materials

- Published per model on the product page; where the manufacturer states no material, the page says so rather than estimating one.

Manufacturing Process

1. Tube Cutting And Bending: Galvanised tube is cut and formed to the frame drawing.
2. Welding And Fabrication: Frame, chassis or track sections are welded and squared.
3. Powder Coating: Finished steelwork is powder coated, the outdoor finish used across the trailer and track ranges.
4. Panel Fitting: PE panels, mesh barriers and decorative printed panels are fitted to the frame.
5. Trial Assembly: Sections are trial assembled so they go together on site first time.
6. Packing: Sections are packed for container loading with the decorative surfaces protected.

Customisation Options

- Theme, colours and printed graphics changed before production
- Supply voltage built to your site: 110V, 220V or 380V depending on the model

- Dimensions and capacity adjusted where the structure allows
- Custom design is marked acceptable across every category on the source catalogue

Certification Standards

The company holds ISO 9001:2015 quality system, certificate 4742SQ0047805, scoped to sales and export of amusement equipment, CE attestations of conformity under Machinery Directive 2006/42/EC held by product family, ECM certificate 0P241231.ZBAWW48 for amusement rides, referencing EN 13814-1:2019+A1:2023 and EN 1176-1:2017+A1:2023, Ask for the attestation covering the product family this model belongs to before shipment. Attestations are issued by product family and are sent on request.

Questions Buyers Ask

What footprint do I need for a race track?

The standard track is 50ft long and the Chicken Run is listed at 50ft long by 28ft wide. Track length is customised on request if your frontage is shorter.

Can these rides be left outside all season?

The race track structures are galvanised tube with powder coating, which is the finish the factory specifies for outdoor use. Long-term storage advice for FRP bodywork is agreed per order.

Is there anything here for under-fives?

Yes. The pedal race cars, the seesaw range and the small carousels are sized for young children. Confirm the rider age and weight limits for the specific model before you buy.

Do you supply the cars with the track?

Cars and track are quoted together. Tell us the throughput you want and the quantity of cars is set against it.

Can the animal bodies be themed to our own farm branding?

Custom design is accepted across this category on the source site. Colours, graphics and body themes are changed before the moulds are laid up.
