

Electric Rope Shovel Parts Coverage

Machine models and part groups covered by Permanscess for P&H, Bucyrus and TZ electric rope shovels.

About Permanscess

Permanscess is a specially electrical shovel parts supplier. Our team have over 20 years experience for shovel maintenance and parts sales. We integrated nearly all the excellent resources for shovel parts in China. Our mission is to provide the lowest cost per ton products for shovel users in the world.

Machine Coverage

P&H Shovel	2300XP/A/B/C, 2800XP/A/B/C, 4100XPB/C
Bucyrus Shovel	295BII AC/DC, 395BI, 495HR
TZ Shovel	WK-20, WK-35, WK-55
Condition	New, made in China

Part Groups

Structure Parts Booms, dippers, handles, saddle blocks and the fabricated and cast structures that carry digging loads. We can provide the same quality standards products with shovel OEM suppliers.

Gearing Parts Gear, pinion and shaft. Gearing from Chinese manufacturers has a particularly favourable price to performance ratio, which is where most of the saving on a rebuild comes from.

Undercarriage Parts Crawler shoes, rollers, idlers, tumblers and pins. Highly cost effective undercarriage parts can replace OE parts completely.

Electrical Parts Relay, contactor, diode, thyristor, switch, reactor, fuse and resistor. We can identify the OEM part number and source the item from first level distributors.

Consumable Parts Bearing, oil seal, filter, wire rope, GET, motor brush, bushing, sleeve, pin, valve, pump, cylinder, lube system and hydraulic system components.

P&H System Coverage

On P&H machines the parts we provide cover the crowd system, the hoist system and the propel system.

What To Send With An Enquiry

- Machine make, model, variant letter and serial number
- Part number if available, otherwise photographs of the failed part and any markings
- Quantity per line and the date the parts are needed on site
- Destination port and any documents your import process requires

Contact

Send the machine model and the part list to info@pmsmining.com or call +86-10-5860 7786. Fax +86-10-5860 7785. Address: Rm1-1909, No. 188, Li Tang Rd., 102218, Beijing China.
