

Shelf Brackets

Specification sheet • 29 products

Pressed steel shelf brackets for closet, garage, retail and decorative shelving, in utility, decorative, folding, rod and plywood profiles.

Core Advantages

- 29 bracket models in one factory, so a whole range shares one finish standard
- Metric and imperial size ladders on the same profiles
- White, grey, black, zinc plated and galvanized finishes
- Plastic covered and plywood bearing variants for furniture and board shelving

Problems This Group Solves

- Light gauge brackets deflect once a garage or storeroom shelf is loaded
- Ranges built from several suppliers arrive in mismatched finishes and hole patterns
- Metric-only ranges force distributors in imperial markets to re-label every pack
- Painted brackets chip on the edge in transit and look second hand on the shelf
