Fortune Cat Sculpture

Popeye sculpture

Sculpture Artwork

Cartoon Horse Sculptures

Fiberglass girl sculpture

Human figure sculpture

sculpture garend -Elk sculpture

How to Order

Step 1 — Send a reference

A photograph, a sketch, a render or a CAD file. Anything that shows the form you have in mind is enough to start.

Step 2 — Give us four numbers

Approximate height or diameter, the finish you want, indoor or outdoor use, and the destination country. Those four inputs cover most of a first quotation.

Step 3 — Approve the 3D model

For custom work the form is modelled in 3D so proportion and panel division can be reviewed before any steel is cut.

Step 4 — Fabrication and inspection

Laser cutting, hand forming, welding, grinding and polishing are carried out in our own workshop. Progress can be reviewed by remote video or in person before packing.

Step 5 — Packing and shipping

Polished surfaces are film protected and padded, then crated in timber with internal bracing for sea freight. Shipping documents are prepared with the consignment.
