

Headphones

Over-ear Bluetooth headphones with 45–50 hour playback and volume-limited kids models

About This Category

Over-ear Bluetooth headphones on 40 mm drivers, with 45 and 50 hour playback variants, an internal metal headband, foldable cups and a braided audio cable in the box. The kids range keeps the same construction but limits volume to 85 dB.

Who It Is For

- Consumer audio brands covering the entry over-ear tier
- Education suppliers and school district buyers
- Kids and family lifestyle brands
- Travel retail and airline accessory buyers

How To Specify It

- Decide adult or kids first — the 85 dB limit changes the amplifier stage.
- Confirm whether a wired fallback is required; the braided 110 cm cable is included as standard.
- Pick playback time by use case: 45 hours for commuting, 50 hours for long-haul and classroom carts.
- Send Pantone references for the two-tone colourway at quotation stage.

Headphones — 6 Models

All specifications below are the published figures for each model.

Bluetooth Stereo Headphone 45 Hours

Headphones

Standby time	approximately 100 hours
Playback time	approximately 45+ hours(at 70% volume)
Charging time	approximately 1.5 hours
Driver size	40mm
