

Table Lights Specification Sheet

Weighted decorative LED table lights for bedside and reception surfaces.

A table light lives on a polished surface next to a phone and a glass of water, so weight and footprint matter more than output. ST2308-RS is 2.2 kg on a 270 mm footprint at 5 W, which is a bedside and accent level rather than a working level.

TABLE LIGHTS

High Purity Alu Table Light ST2308-RS

515 mm table light, matt white, Cree-class 5 W, 2.2 kg

Material	Aluminum +Iron+Acrylic
Product Size	L 270*H515 mm

Production Time	20 days or less
Delivery Time	Based on the mode of shipping chosen

Notes

- 2.2 kg body mass keeps the lamp in place on polished surfaces
- 270 mm footprint leaves the table usable
- Acrylic diffuser gives an even glow at close viewing distance
- 3000K, 4000K and 6000K built to order

Colour temperature is built to order per line item and cannot be changed after delivery. Production time is 20 days or less. Delivery time depends on the shipping mode chosen. Every piece is packed singly and our packing is verified by drop test.
