Sizes and Variants

Diameters	6 cm, 12.6 cm, 20 cm, 25 cm, 30 cm
Chrome ball	Specular mirror surface for environment capture
Grey ball	18 percent reflective grey for exposure reference
Split ball	Half chrome and half grey in one sphere
Surface	More than twenty processing steps to hold specular reflection

Notes

The grey scale is accurate and has been brought to a professional level through long term testing in the later stage of the scene. Chrome and grey references can be supplied as a matched pair.

All figures are production capability ranges. Confirm the specification for your piece before ordering. Maoping Sculpture Arts does not publish certification claims; ask us what documentation we can supply for your project.
