

Stone Bathtub Catalogue

Bathtubs carved from one solid block of natural stone. Marble, granite, Italian marble, travertine, sandstone, limestone, onyx, river cobble and terrazzo.

Every model is made to order. Sizes follow your drawing, so the models below show the shape and the stone rather than a fixed dimension. Stone is natural, so colour and veining vary between pieces. Block photographs are sent for approval before carving.

How to order

Send the model, the size or the opening the tub must fit, the stone, the finish, the quantity and your destination port.

A written quotation follows with the unit price, the tub weight, the crate weight and size, the production time and the freight time.

After the deposit the factory photographs the block and the cut face for your approval.

Carving, polishing, a water test and final photographs come before the crate is closed.

Crates are fumigated timber on a forklift base with the weight and lifting points marked.
