Aluminum Sign Letters — 7 builds

Acrylic Sign Letters — 9 builds

Brass, Copper & Bronze Letters — 11 builds

Frontlit LED Letters — 10 builds

Backlit & Halo LED Letters — 10 builds

Custom LED Signs — 4 builds

Stainless Steel Letters

Fabricated stainless steel is the workhorse of architectural lettering: it takes a brushed, satin, mirror or plated finish, it holds a crisp return, and on a 316 specification it will sit on a coastal façade without weeping rust down the render. Everything in this section is built to your outline — soldered up from sheet for a built-up letter, or cut solid for a flat-cut letter.

316 Brushed Stainless Steel Letters 08

316 Brushed Stainless Steel Letters 08 start as your vector artwork and leave the bench as finished, ready-to-mount signage.

Fixing method	Back screw bolt or double-sided adhesive

Lead time	Normal 5–7 days on producing and 4 days by DHL or UPS express

Polished Stainless Steel Letters 16

Polished Stainless Steel Letters 16 are fabricated to your artwork at our Shenzhen workshop, letter by letter.

Fixing method	Back screw bolt or double-sided adhesive
Lead time	Normal 5–7 days on producing and 4 days by DHL or UPS express(door door service)

316 Satin Stainless Steel Letters 03

316 Satin Stainless Steel Letters 03 are fabricated to your artwork at our Shenzhen workshop, letter by letter.

Fixing method	Back screw bolt or double-sided adhesive
Lead time	Normal 5–7 days on producing and 4 days by DHL or UPS express

Polished Stainless Steel Lettering 10

Polished Stainless Steel Lettering 10 are built around your logo geometry rather than trimmed to fit a catalogue shape.

Fixing method	Back screw bolt or double-sided adhesive
Lead time	Normal 5–7 days on producing and 4 days by DHL or UPS express(door door service)

Aluminum Sign Letters

Solid aluminum is specified where weight matters and where the sign has to live outdoors for years — the source specification calls this material out for marine surroundings in particular. Letters are CNC router cut from 3mm, 5mm, 10mm or 20mm plate, or fabricated as box letters, then anodized or finished in two-pack polyurethane to a PMS or RAL reference.

Fabricated Aluminum Sign Letters

Fabricated Aluminum Sign Letters are cut and built to the exact outline you supply, at the size your elevation calls for. Material: aluminum. Fabrication: high quality aluminum welding and perfect finishing. Finish: 2 pack polyurethane paints on the surface, please supply PMS or RAL color code.

Material	Aluminum material
Fabrication	High quality aluminum welding and perfect finishing
Finish	2 pack polyurethane paints on the surface, please supply PMS or RAL color code
Size & font	Fabricated style is usually used on big size and fat font
Fixing method	Back screw pins
Supplied with	1:1 scale mounting template and screw pins
Suitable for	Outside use, especially marine surrounding
Minimum order	No MOQ — any quantity accepted
Shipping service	DHL or UPS express door to door delivery service available
Lead time	Normal 5–7 days on producing and 4 days by DHL or UPS express

Painted Aluminum Box Letters

Painted Aluminum Box Letters are cut and built to the exact outline you supply, at the size your elevation calls for. Material: aluminum. Fabrication: high quality aluminum welding and perfect finishing. Finish: 2 pack polyurethane paints on the surface, please supply PMS or RAL color code.

Material	Aluminum material
Fabrication	High quality aluminum welding and perfect finishing
Finish	2 pack polyurethane paints on the surface, please supply PMS or RAL color code
Size & font	Fabricated style is usually used on big size and fat font
Fixing method	Back screw pins
Supplied with	1:1 scale mounting template and screw pins
Suitable for	Outside use, especially marine surrounding
Minimum order	No MOQ — any quantity accepted
Shipping service	DHL or UPS express door to door delivery service available
Lead time	Normal 5–7 days on producing and 4 days by DHL or UPS express

Brushed Aluminum Box Letters 03

Brushed Aluminum Box Letters 03 are made to order from your own logo file — no stock fonts, no stock sizes. Material: 3mm or 5mm or 10mm or 20mm solid aluminum. Fabrication: CNC router cutting. Finish: brushed anodized processing.

Material	3mm or 5mm or 10mm or 20mm solid aluminum material
Fabrication	CNC router cutting
Finish	Brushed anodized processing
Size & font	Any size and any font available
Fixing method	Back screw pins
Supplied with	1:1 scale mounting template and screw pins
Suitable for	Outside use, especially marine surrounding
Minimum order	No MOQ — any quantity accepted
Shipping service	DHL or UPS express door to door delivery service available
Lead time	Normal 5–7 days on producing and 4 days by DHL or UPS express

Satin Aluminum Sign Letters 01

Satin Aluminum Sign Letters 01 start as your vector artwork and leave the bench as finished, ready-to-mount signage. Material: 3mm or 5mm or 10mm or 20mm solid aluminum. Fabrication: CNC router cutting. Finish: satin anodized finishing.

Material	3mm or 5mm or 10mm or 20mm solid aluminum material
Fabrication	CNC router cutting
Finish	Satin anodized finishing
Size & font	Any size and any font supplied
Fixing method	Back screw pins
Supplied with	1:1 scale mounting template and screw pins
Suitable for	Outside use, especially marine surrounding
Minimum order	No MOQ — any quantity accepted
Shipping service	DHL or UPS express door to door delivery service available
Lead time	Normal 5–7 days on producing and 4 days by DHL or UPS express

Flat Cut Aluminum Sign Letters

Flat Cut Aluminum Sign Letters are made to order from your own logo file — no stock fonts, no stock sizes. Material: different thickness available, 1mm, 2mm, 3mm, 5mm, 6mm, 10mm, 20mm solid aluminum. Fabrication: CNC router cutting. Finish: 2 pack polyurethane painted on the surface, please supply PMS or RAL color code.

Material	Different thickness available, 1mm, 2mm, 3mm, 5mm, 6mm, 10mm, 20mm solid aluminum
Fabrication	CNC router cutting
Finish	2 pack polyurethane painted on the surface, please supply PMS or RAL color code
Size & font	Any font and any size available
Fixing method	Back screw pins or double-sided adhesive
Supplied with	1:1 scale mounting template and screw pins
Suitable for	Outside use, especially marine surrounding
Minimum order	No MOQ — any quantity accepted
Shipping service	DHL or UPS express door to door delivery service available
Lead time	Normal 5–7 days on producing and 4 days by DHL or UPS express

Flat Cut Aluminum Sign Lettering

Flat Cut Aluminum Sign Lettering are made to order from your own logo file — no stock fonts, no stock sizes. Material: different thickness available, 1mm, 2mm, 3mm, 5mm, 6mm, 10mm, 20mm solid aluminum. Fabrication: CNC router cutting. Finish: 2 pack polyurethane painted on the surface, please supply PMS or RAL color code.

Material	Different thickness available, 1mm, 2mm, 3mm, 5mm, 6mm, 10mm, 20mm solid aluminum
Fabrication	CNC router cutting
Finish	2 pack polyurethane painted on the surface, please supply PMS or RAL color code
Size & font	Any font and any size available
Fixing method	Back screw pins or double-sided adhesive
Supplied with	1:1 scale mounting template and screw pins
Suitable for	Outside use, especially marine surrounding
Minimum order	No MOQ — any quantity accepted
Shipping service	DHL or UPS express door to door delivery service available
Lead time	Normal 5–7 days on producing and 4 days by DHL or UPS express

Painted Aluminum Panel Signage

Painted Aluminum Panel Signage are produced one job at a time, matched to the drawing and finish you specify. Material: different thickness available, 1mm, 2mm, 3mm, 5mm, 6mm, 10mm, 20mm solid aluminum. Fabrication: CNC router cutting. Finish: 2 pack polyurethane painted on the surface, please supply PMS or RAL color code.

Material	Different thickness available, 1mm, 2mm, 3mm, 5mm, 6mm, 10mm, 20mm solid aluminum
Fabrication	CNC router cutting
Finish	2 pack polyurethane painted on the surface, please supply PMS or RAL color code
Size & font	Any font and any size available
Fixing method	Back screw pins or double-sided adhesive
Supplied with	1:1 scale mounting template and screw pins

Shipping service	DHL or UPS express door to door delivery service available
Lead time	Normal 5–7 days on producing and 4 days by DHL or UPS express

Acrylic Sign Letters

Acrylic gives you color depth and a chunky edge at a fraction of the weight of metal, which is why it dominates interior fit-outs and shopfront fascias. Stock is cut from 5mm, 10mm, 20mm and 30mm solid sheet, then either left in its own color or sprayed in two-pack polyurethane to a PMS reference.

Painted Acrylic Letters 01

Painted Acrylic Letters 01 are cut and built to the exact outline you supply, at the size your elevation calls for. Material: 5mm, 10mm, 20mm, 30mm thick solid acrylic available. Fabrication: CNC cut out. Finish: 2 pack polyurethane paints on the surface, please supply PMS color code.

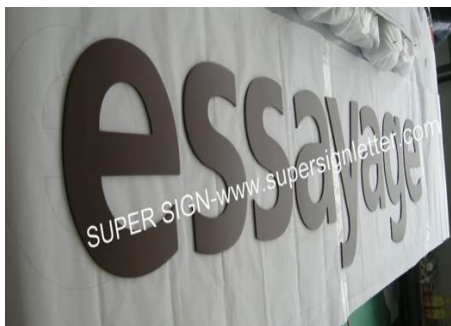

Material	5mm, 10mm, 20mm, 30mm thick solid acrylic available
Fabrication	CNC cut out
Finish	2 pack polyurethane paints on the surface, please supply PMS color code
Size & font	Any size and any font available
Fixing method	Back screw pins
Supplied with	1:1 scale mounting template and screw pins
Suitable for	Indoor and outside use
Minimum order	No MOQ — any quantity accepted
Shipping service	DHL or UPS express door to door delivery service available
Lead time	Normal 5–7 days on producing and 4 days by DHL or UPS express

Painted Acrylic Lettering 02

Painted Acrylic Lettering 02 are produced one job at a time, matched to the drawing and finish you specify. Material: 5mm, 10mm, 20mm, 30mm thick solid acrylic available. Fabrication: CNC cut out. Finish: 2 pack polyurethane paints on the surface, please supply PMS color code.

Material	5mm, 10mm, 20mm, 30mm thick solid acrylic available
Fabrication	CNC cut out
Finish	2 pack polyurethane paints on the surface, please supply PMS color code
Size & font	Any size and any font available
Fixing method	Back screw pins
Supplied with	1:1 scale mounting template and screw pins
Suitable for	Indoor and outside use
Minimum order	No MOQ — any quantity accepted
Shipping service	DHL or UPS express door to door delivery service available
Lead time	Normal 5–7 days on producing and 4 days by DHL or UPS express

Painted Acrylic Letters 03

Painted Acrylic Letters 03 are fabricated to your artwork at our Shenzhen workshop, letter by letter. Material: 5mm, 10mm, 20mm, 30mm thick solid acrylic available. Fabrication: CNC cut out. Finish: 2 pack polyurethane paints on the surface, please supply PMS color code.

Material	5mm, 10mm, 20mm, 30mm thick solid acrylic available
Fabrication	CNC cut out
Finish	2 pack polyurethane paints on the surface, please supply PMS color code
Size & font	Any size and any font available
Fixing method	Back screw pins
Supplied with	1:1 scale mounting template and screw pins
Suitable for	Indoor and outside use
Minimum order	No MOQ — any quantity accepted
Shipping service	DHL or UPS express door to door delivery service available
Lead time	Normal 5–7 days on producing and 4 days by DHL or UPS express

Painting Acrylic Sign Letters 04

Painting Acrylic Sign Letters 04 are built around your logo geometry rather than trimmed to fit a catalogue shape. Material: 5mm, 10mm, 20mm, 30mm thick solid acrylic available. Fabrication: CNC cut out. Finish: 2 pack polyurethane paints on the surface, please supply PMS color code.

Material	5mm, 10mm, 20mm, 30mm thick solid acrylic available
Fabrication	CNC cut out
Finish	2 pack polyurethane paints on the surface, please supply PMS color code
Size & font	Any size and any font available
Fixing method	Back screw pins
Supplied with	1:1 scale mounting template and screw pins
Suitable for	Indoor and outside use
Minimum order	No MOQ — any quantity accepted
Shipping service	DHL or UPS express door to door delivery service available
Lead time	Normal 5–7 days on producing and 4 days by DHL or UPS express

Acrylic Letters Signage 05

Acrylic Letters Signage 05 start as your vector artwork and leave the bench as finished, ready-to-mount signage. Material: 5mm, 10mm, 20mm, 30mm thick clear acrylic back and metal face. Fabrication: acrylic back is cut out by CNC, metal face is cut by laser machine. Finish: clear side.

Material	5mm, 10mm, 20mm, 30mm thick clear acrylic back and metal face
Fabrication	Acrylic back is cut out by CNC, metal face is cut by laser machine

Suitable for	Indoor and outside use
Minimum order	No MOQ — any quantity accepted
Shipping service	DHL or UPS express door to door delivery service available
Lead time	Normal 5–7 days on producing and 4 days by DHL or UPS express

Brass, Copper & Bronze Letters

Brass, copper and bronze are the materials people reach for when a sign has to look expensive from a meter away — heritage buildings, private clubs, jewellers, boutique hotels. Letters are water-jet cut from solid stock or fabricated and soldered, then brushed, polished or plated and, where specified, clear-coated to slow the patina.

Built-Up Copper Sign Letters

Built-Up Copper Sign Letters is listed in the Super Sign Brass, Copper & Bronze Letters range. The detail record for this item is no longer held on the original catalogue, so only the photograph and the product name are carried over here rather than a specification we cannot verify.

Specification	Detail record not held in the factory catalogue — confirm on enquiry.

Payment terms	We accept payment by T/T or Paypal or Western Union

Brushed Solid Brass Letters 02

Brushed Solid Brass Letters 02 are made to order from your own logo file — no stock fonts, no stock sizes. Material: 1mm, 3mm, 5mm, 8mm, 10mm solid brass. Fabrication: water jet cutting. Finish: brushed brass.

Material	1mm, 3mm, 5mm, 8mm, 10mm solid brass material
Fabrication	Water jet cutting
Finish	Brushed brass
Size & font	Different fonts and sizes available, we can offer super slim shape and very small letter
Fixing method	Back screw bolt or double-sided adhesive
Supplied with	1:1 scale mounting template and screw bolts
Suitable for	Outside and indoor use
Minimum order	No MOQ — any quantity accepted
Shipping service	DHL or UPS express door to door delivery service available
Lead time	Normal 5–7 days on producing and 4 days by DHL or UPS express
Payment terms	We accept payment by T/T or Paypal or Western Union

3D Copper Letters Sign 03

3D Copper Letters Sign 03 are built around your logo geometry rather than trimmed to fit a catalogue shape. Material: copper. Fabrication: water jet cutting and perfect quality soldering. Finish: polished or brushed brass with a clear coat.

Material	Copper material
Fabrication	Water jet cutting and perfect quality soldering
Finish	Polished or brushed brass with a clear coat
Size & font	Different fonts and sizes available, we can offer super slim shape and very small letter
Fixing method	Back screw bolt or double-sided adhesive
Supplied with	1:1 scale mounting template and screw bolts
Suitable for	Outside and indoor use
Minimum order	No MOQ — any quantity accepted
Shipping service	DHL or UPS express door to door delivery service available
Lead time	Normal 5–7 days on producing and 4 days by DHL or UPS express
Payment terms	We accept payment by T/T or Paypal or Western Union

Backlit LED Polished Brass Letters 04

Backlit LED Polished Brass Letters 04 start as your vector artwork and leave the bench as finished, ready-to-mount signage. Material: brass material and inner white LED lights. Fabrication: perfect quality soldering between return and side. Finish: polished brass with backlit LED lights. The light is thrown back onto the wall behind the letter, leaving the face solid and the outline glowing.

Material	Brass material and inner white LED lights
Fabrication	Perfect quality soldering between return and side
Finish	Polished brass with backlit LED lights
Size & font	Different fonts and sizes available, we can offer super slim shape and very small letter
Fixing method	Back screw bolt or double-sided adhesive
Supplied with	1:1 scale mounting template and screw bolts
Suitable for	Outside and indoor use
Minimum order	No MOQ — any quantity accepted
Shipping service	DHL or UPS express door to door delivery service available
Lead time	Normal 5–7 days on producing and 4 days by DHL or UPS express
Payment terms	We accept payment by T/T or Paypal or Western Union

Brushed Brass Letters

Brushed Brass Letters are built around your logo geometry rather than trimmed to fit a catalogue shape. Material: brass. Fabrication: water jet cutting and perfect quality soldering. Finish: brushed brass with a clear coat.

Material	Brass material
Fabrication	Water jet cutting and perfect quality soldering
Finish	Brushed brass with a clear coat
Size & font	Different fonts and sizes available, we can offer super slim shape and very small letter
Fixing method	Back screw bolt or double-sided adhesive
Supplied with	1:1 scale mounting template and screw bolts
Suitable for	Outside and indoor use
Minimum order	No MOQ — any quantity accepted
Shipping service	DHL or UPS express door to door delivery service available
Lead time	Normal 5–7 days on producing and 4 days by DHL or UPS express
Payment terms	We accept payment by T/T or Paypal or Western Union

Built-Up Brushed Brass Sign Lettering

Built-Up Brushed Brass Sign Lettering is listed in the Super Sign Brass, Copper & Bronze Letters range. The detail record for this item is no longer held on the original catalogue, so only the photograph and the product name are carried over here rather than a specification we cannot verify.

Specification	Detail record not held in the factory catalogue — confirm on enquiry.
----------------------	---

3D Brushed Brass Letters

3D Brushed Brass Letters are cut and built to the exact outline you supply, at the size your elevation calls for. Material: brass. Fabrication: water jet cutting and perfect quality soldering. Finish: brushed brass with a clear coat.

Material	Brass material
Fabrication	Water jet cutting and perfect quality soldering
Finish	Brushed brass with a clear coat
Size & font	Different fonts and sizes available, we can offer super slim shape and very small letter
Fixing method	Back screw bolt or double-sided adhesive
Supplied with	1:1 scale mounting template and screw bolts
Suitable for	Outside and indoor use
Minimum order	No MOQ — any quantity accepted
Shipping service	DHL or UPS express door to door delivery service available
Lead time	Normal 5–7 days on producing and 4 days by DHL or UPS express

3D Brass Letters Signage

3D Brass Letters Signage start as your vector artwork and leave the bench as finished, ready-to-mount signage. Material: brass. Fabrication: water jet cutting and perfect quality soldering. Finish: brushed brass with a clear coat.

Material	Brass material
Fabrication	Water jet cutting and perfect quality soldering
Finish	Brushed brass with a clear coat
Size & font	Different fonts and sizes available, we can offer super slim shape and very small letter
Fixing method	Back screw bolt or double-sided adhesive
Supplied with	1:1 scale mounting template and screw bolts
Suitable for	Outside and indoor use
Minimum order	No MOQ — any quantity accepted
Shipping service	DHL or UPS express door to door delivery service available
Lead time	Normal 5–7 days on producing and 4 days by DHL or UPS express

Copper Sign Letters 05

Copper Sign Letters 05 are cut and built to the exact outline you supply, at the size your elevation calls for. Material: copper. Fabrication: water jet cutting and perfect quality soldering. Finish: brushed brass with a clear coat.

Material	Copper material
Fabrication	Water jet cutting and perfect quality soldering
Finish	Brushed brass with a clear coat
Size & font	Different fonts and sizes available, we can offer super slim shape and very small letter
Fixing method	Back screw bolt or double-sided adhesive
Supplied with	1:1 scale mounting template and screw bolts
Suitable for	Outside and indoor use
Minimum order	No MOQ — any quantity accepted
Shipping service	DHL or UPS express door to door delivery service available
Lead time	Normal 5–7 days on producing and 4 days by DHL or UPS express

Frontlit LED Letters

Frontlit channel letters are the standard illuminated shopfront letter: a metal return and back, LEDs inside, and an acrylic face that the light passes through. Returns are typically 60mm to 100mm deep, built in painted aluminum or brushed stainless steel depending on the specification, and every set ships with a 12V DC CE and RoHS approved transformer.

Frontlit LED Channel Letters

Frontlit LED Channel Letters are made to order from your own logo file — no stock fonts, no stock sizes. Material: aluminum return and back, no rim, inner LED lights, acrylic face. Fabrication: high quality aluminum welding for return and back, the front acrylic is fixed by screws at the return. Finish: painted aluminum return and back, LED lights pass through from acrylic face when light is on. Light leaves through the acrylic face, so the letter reads as a solid block of color after dark.

Material	Aluminum return and back, no rim, inner LED lights, acrylic face
Fabrication	High quality aluminum welding for return and back, the front acrylic is fixed by screws at the return
Finish	Painted aluminum return and back, LED lights pass through from acrylic face when light is on
Size & font	Typically 60mm – 100mm deep, this style is suitable for very thin and slim fonts
Fixing method	Back screw bolts
Supplied with	1:1 scale mounting template and screw bolts, 12V DC CE and RoHS approved transformer
Suitable for	Both outside and indoor
Minimum order	No MOQ — any quantity accepted
Shipping service	DHL or UPS express door to door delivery service available
Lead time	Normal 7 days on producing and 4 days by DHL or UPS express

Frontlit LED Channel Letters 03

Frontlit LED Channel Letters 03 are produced one job at a time, matched to the drawing and finish you specify. Material: stainless steel return and rim, inner LED lights, acrylic front. Fabrication: high quality soldering for return and rim. Finish: 304 brushed stainless steel return and rim, LED lights pass through from acrylic face when light is on. Light leaves through the acrylic face, so the letter reads as a solid block of color after dark.

Material	Stainless steel return and rim, inner LED lights, acrylic front
Fabrication	High quality soldering for return and rim
Finish	304 brushed stainless steel return and rim, LED lights pass through from acrylic face when light is on
Size & font	Typically 60mm – 100mm deep
Fixing method	PVC back or metal back which is fixed by screw bolts
Supplied with	1:1 scale mounting template and screw bolts, 12V DC CE and RoHS approved transformer
Suitable for	Both outside and indoor
Minimum order	No MOQ — any quantity accepted
Shipping service	DHL or UPS express door to door delivery service available
Lead time	Normal 7 days on producing and 4 days by DHL or UPS express

Frontlit LED Letters 01

Frontlit LED Letters 01 are fabricated to your artwork at our Shenzhen workshop, letter by letter. Material: aluminum return and rim, inner LED lights, acrylic front. Fabrication: high quality aluminum welding for return and rim. Finish: painted aluminum return side and rim, LED lights pass through from acrylic face when light is on. Light leaves through the acrylic face, so the letter reads as a solid block of color after dark.

Material	Aluminum return and rim, inner LED lights, acrylic front
Fabrication	High quality aluminum welding for return and rim
Finish	Painted aluminum return side and rim, LED lights pass through from acrylic face when light is on
Size & font	Typically 60mm – 100mm deep
Fixing method	PVC back or metal back which is fixed by screw bolts
Supplied with	1:1 scale mounting template and screw bolts, 12V DC CE and RoHS approved transformer
Suitable for	Both outside and indoor
Minimum order	No MOQ — any quantity accepted
Shipping service	DHL or UPS express door to door delivery service available
Lead time	Normal 7 days on producing and 4 days by DHL or UPS express

Frontlit LED Sign Letters 02

Frontlit LED Sign Letters 02 start as your vector artwork and leave the bench as finished, ready-to-mount signage. Material: stainless steel return and rim, inner LED lights, acrylic front. Fabrication: high quality soldering for return and rim. Finish: 304 brushed stainless steel return and rim, LED lights pass through from acrylic face when light is on. Light leaves through the acrylic face, so the letter reads as a solid block of color after dark.

Material	Stainless steel return and rim, inner LED lights, acrylic front
Fabrication	High quality soldering for return and rim
Finish	304 brushed stainless steel return and rim, LED lights pass through from acrylic face when light is on
Size & font	Typically 60mm – 100mm deep
Fixing method	PVC back or metal back which is fixed by screw bolts
Supplied with	1:1 scale mounting template and screw bolts, 12V DC CE and RoHS approved transformer
Suitable for	Both outside and indoor
Minimum order	No MOQ — any quantity accepted
Shipping service	DHL or UPS express door to door delivery service available
Lead time	Normal 7 days on producing and 4 days by DHL or UPS express

Facelit LED Letters Sign

Facelit LED Letters Sign start as your vector artwork and leave the bench as finished, ready-to-mount signage. Material: stainless steel return and back, no rim, inner LED lights, acrylic face. Fabrication: high quality soldering for return and back, the acrylic is fixed by screws at the return. Finish: painted stainless steel return and back, LED lights pass through from acrylic face when light is on. Light leaves through the acrylic face, so the letter reads as a solid block of color after dark.

Material	Stainless steel return and back, no rim, inner LED lights, acrylic face
Fabrication	High quality soldering for return and back, the acrylic is fixed by screws at the return
Finish	Painted stainless steel return and back, LED lights pass through from acrylic face when light is on
Size & font	Typically 60mm – 100mm deep, this style is suitable for very thin and slim fonts
Fixing method	Metal back which is fixed by screw bolts
Supplied with	1:1 scale mounting template and screw bolts, 12V DC CE and RoHS approved transformer
Suitable for	Both outside and indoor
Minimum order	No MOQ — any quantity accepted
Shipping service	DHL or UPS express door to door delivery service available
Lead time	Normal 7 days on producing and 4 days by DHL or UPS express

Facelit LED Channel Letters 05

Facelit LED Channel Letters 05 are built around your logo geometry rather than trimmed to fit a catalogue shape. Material: stainless steel return and rim, inner LED lights, "black and white" acrylic face. Fabrication: high quality soldering for return and rim. Finish: painted stainless steel return and rim, LED lights pass through from acrylic face when light is on. Light leaves through the acrylic face, so the letter reads as a solid block of color after dark.

Material	Stainless steel return and rim, inner LED lights, "black and white" acrylic face
Fabrication	High quality soldering for return and rim
Finish	Painted stainless steel return and rim, LED lights pass through from acrylic face when light is on
Size & font	Typically 60mm – 100mm deep
Fixing method	PVC back or metal back which is fixed by screw bolts
Supplied with	1:1 scale mounting template and screw bolts, 12V DC CE and RoHS approved transformer
Suitable for	Both outside and indoor
Minimum order	No MOQ — any quantity accepted
Shipping service	DHL or UPS express door to door delivery service available
Lead time	Normal 7 days on producing and 4 days by DHL or UPS express

Frontlit LED Box Letters 06

Frontlit LED Box Letters 06 are made to order from your own logo file — no stock fonts, no stock sizes. Material: aluminum return and back, no rim, inner LED lights, acrylic face. Fabrication: high quality aluminum welding for return and back, the front acrylic is fixed by screws at the return. Finish: painted aluminum return and back, LED lights pass through from acrylic face when light is on. Light leaves through the acrylic face, so the letter reads as a solid block of color after dark.

Material	Aluminum return and back, no rim, inner LED lights, acrylic face
Fabrication	High quality aluminum welding for return and back, the front acrylic is fixed by screws at the return
Finish	Painted aluminum return and back, LED lights pass through from acrylic face when light is on
Size & font	Typically 60mm – 100mm deep, this style is suitable for very thin and slim fonts
Fixing method	Back screw bolts
Supplied with	1:1 scale mounting template and screw bolts, 12V DC CE and RoHS approved transformer
Suitable for	Both outside and indoor
Minimum order	No MOQ — any quantity accepted
Shipping service	DHL or UPS express door to door delivery service available
Lead time	Normal 7 days on producing and 4 days by DHL or UPS express

Frontlit LED Channel Lettering

Frontlit LED Channel Lettering are fabricated to your artwork at our Shenzhen workshop, letter by letter. Material: stainless steel return and back, no rim, inner LED lights, acrylic face. Fabrication: high quality soldering for return and back, the front acrylic is fixed by screws at the return. Finish: polished stainless steel LED lights pass through from acrylic face when light is on. Light leaves through the acrylic face, so the letter reads as a solid block of color after dark.

Material	Stainless steel return and back, no rim, inner LED lights, acrylic face
Fabrication	High quality soldering for return and back, the front acrylic is fixed by screws at the return
Finish	Polished stainless steel LED lights pass through from acrylic face when light is on
Size & font	Typically 60mm – 100mm deep, this style is suitable for very thin and slim fonts
Fixing method	Back screw bolts
Supplied with	1:1 scale mounting template and screw bolts, 12V DC CE and RoHS approved transformer
Suitable for	Both outside and indoor
Minimum order	No MOQ — any quantity accepted
Shipping service	DHL or UPS express door to door delivery service available
Lead time	Normal 7 days on producing and 4 days by DHL or UPS express

LED Channel Letters 08

LED Channel Letters 08 are cut and built to the exact outline you supply, at the size your elevation calls for. Material: stainless steel return and rim, inner LED lights, acrylic front. Fabrication: high quality soldering for return and rim. Finish: 304 brushed stainless steel return and rim, LED lights pass through from acrylic face when light is on.

Material	Stainless steel return and rim, inner LED lights, acrylic front
Fabrication	High quality soldering for return and rim
Finish	304 brushed stainless steel return and rim, LED lights pass through from acrylic face when light is on
Size & font	Typically 60mm – 100mm deep
Fixing method	PVC back or metal back which is fixed by screw bolts
Supplied with	1:1 scale mounting template and screw bolts, 12V DC CE and RoHS approved transformer
Suitable for	Both outside and indoor
Minimum order	No MOQ — any quantity accepted
Shipping service	DHL or UPS express door to door delivery service available
Lead time	Normal 7 days on producing and 4 days by DHL or UPS express

Facelit LED Box Letters 10

Facelit LED Box Letters 10 are produced one job at a time, matched to the drawing and finish you specify. Material: stainless steel return and back, no rim, inner LED lights, acrylic face. Fabrication: high quality soldering for return and back, the front acrylic is fixed by screws at the return. Finish: polished stainless steel LED lights pass through from acrylic face when light is on. Light leaves through the acrylic face, so the letter reads as a solid block of color after dark.

Material	Stainless steel return and back, no rim, inner LED lights, acrylic face
Fabrication	High quality soldering for return and back, the front acrylic is fixed by screws at the return
Finish	Polished stainless steel LED lights pass through from acrylic face when light is on
Size & font	Typically 60mm – 100mm deep, this style is suitable for very thin and slim fonts
Fixing method	Back screw bolts
Supplied with	1:1 scale mounting template and screw bolts, 12V DC CE and RoHS approved transformer
Suitable for	Both outside and indoor
Minimum order	No MOQ — any quantity accepted
Shipping service	DHL or UPS express door to door delivery service available
Lead time	Normal 7 days on producing and 4 days by DHL or UPS express

Backlit & Halo LED Letters

Backlit — or halo — letters keep a solid metal face and throw their light onto the wall behind, so by day the sign reads as plain metal and by night it reads as a glowing outline. Builds use stainless steel faces over frosted acrylic backs, spaced off the wall on pins, with a 12V DC CE and RoHS approved transformer supplied.

Backlit LED Sign Letters

Backlit LED Sign Letters are fabricated to your artwork at our Shenzhen workshop, letter by letter. Material: stainless steel and inner high quality LED lights. Fabrication: high quality soldering. Finish: polished stainless steel and backlit LED lights, bright backlit light effect. The light is thrown back onto the wall behind the letter, leaving the face solid and the outline glowing.

Material	Stainless steel and inner high quality LED lights
Fabrication	High quality soldering
Finish	Polished stainless steel and backlit LED lights, bright backlit light effect
Size & font	We can do very slim backlit LED letters
Fixing method	Back screw pins
Supplied with	1:1 scale mounting template and screw pins, 12V DC CE and RoHS approved transformer
Suitable for	Outside use
Minimum order	No MOQ — any quantity accepted
Shipping service	DHL or UPS express door to door delivery service available
Lead time	Normal 5–7 days on producing and 4 days by DHL or UPS express

Halo Illumination LED Letters

Halo Illumination LED Letters are fabricated to your artwork at our Shenzhen workshop, letter by letter. Material: stainless steel front and inner LED lights and 30mm thick frosted acrylic back. Fabrication: high quality soldering and exact matching between steel side and acrylic side. Finish: polished stainless steel and backlit LED lights, bright backlit light effect. The face stays solid metal and the glow spills out around the letter, which is why this style is often specified for reception walls and hotel façades.

Material	Stainless steel front and inner LED lights and 30mm thick frosted acrylic back
Fabrication	High quality soldering and exact matching between steel side and acrylic side
Finish	Polished stainless steel and backlit LED lights, bright backlit light effect
Size & font	Small size and big size available
Fixing method	Back screw pins
Supplied with	1:1 scale mounting template and screw pins, 12V DC CE and RoHS approved transformer
Suitable for	Outside use
Minimum order	No MOQ — any quantity accepted
Shipping service	DHL or UPS express door to door delivery service available
Lead time	Normal 5–7 days on producing and 4 days by DHL or UPS express

Halo Illumination LED Letters 02

Halo Illumination LED Letters 02 are made to order from your own logo file — no stock fonts, no stock sizes. Material: stainless steel and inner high quality LED lights. Fabrication: high quality soldering. Finish: painted stainless steel and backlit LED lights, bright backlit light effect. The face stays solid metal and the glow spills out around the letter, which is why this style is often specified for reception walls and hotel façades.

Material	Stainless steel and inner high quality LED lights
Fabrication	High quality soldering
Finish	Painted stainless steel and backlit LED lights, bright backlit light effect
Size & font	We can do very slim backlit LED letters
Fixing method	Back screw pins
Supplied with	1:1 scale mounting template and screw pins, 12V CE and RoHS approved transformer
Suitable for	Outside use
Minimum order	No MOQ — any quantity accepted
Shipping service	DHL or UPS express door to door delivery service available
Lead time	Normal 5–7 days on producing and 4 days by DHL or UPS express

Backlit LED Sign Letters G01

Backlit LED Sign Letters G01 are made to order from your own logo file — no stock fonts, no stock sizes. Material: stainless steel and inner high quality LED lights. Fabrication: high quality aluminum soldering. Finish: polished stainless steel and backlit LED lights, bright backlit light effect. The light is thrown back onto the wall behind the letter, leaving the face solid and the outline glowing.

Material	Stainless steel and inner high quality LED lights
Fabrication	High quality aluminum soldering
Finish	Polished stainless steel and backlit LED lights, bright backlit light effect
Size & font	We can do very slim backlit LED letters
Fixing method	Back screw pins
Supplied with	1:1 scale mounting template and screw pins, 12V DC CE and RoHS approved transformer
Suitable for	Outside use
Minimum order	No MOQ — any quantity accepted
Shipping service	DHL or UPS express door to door delivery service available
Lead time	Normal 5–7 days on producing and 4 days by DHL or UPS express

Backlit LED Aluminum Signage 04

Backlit LED Aluminum Signage 04 start as your vector artwork and leave the bench as finished, ready-to-mount signage. Material: aluminum alloy material and inner high quality LED lights. Fabrication: high quality aluminum welding. Finish: painted aluminum and backlit LED lights, bright backlit light effect. The light is thrown back onto the wall behind the letter, leaving the face solid and the outline glowing.

Material	Aluminum alloy material and inner high quality LED lights
Fabrication	High quality aluminum welding
Finish	Painted aluminum and backlit LED lights, bright backlit light effect
Size & font	We can do very slim backlit LED letters
Fixing method	Back screw pins
Supplied with	1:1 scale mounting template and screw pins, 12V DC CE and RoHS approved transformer
Suitable for	Outside use
Minimum order	No MOQ — any quantity accepted
Shipping service	DHL or UPS express door to door delivery service available
Lead time	Normal 5–7 days on producing and 4 days by DHL or UPS express

Halo Illumination LED Sign Letters 06

Halo Illumination LED Sign Letters 06 are cut and built to the exact outline you supply, at the size your elevation calls for. Material: stainless steel and inner high quality LED lights. Fabrication: high quality soldering. Finish: painted stainless steel and backlit LED lights, bright backlit light effect. The face stays solid metal and the glow spills out around the letter, which is why this style is often specified for reception walls and hotel façades.

Material	Stainless steel and inner high quality LED lights
Fabrication	High quality soldering
Finish	Painted stainless steel and backlit LED lights, bright backlit light effect
Size & font	We can do very slim backlit LED letters
Fixing method	Back screw pins
Supplied with	1:1 scale mounting template and screw pins, 12V CE and RoHS approved transformer
Suitable for	Outside use
Minimum order	No MOQ — any quantity accepted
Shipping service	DHL or UPS express door to door delivery service available
Lead time	Normal 5–7 days on producing and 4 days by DHL or UPS express

Halo Illumination LED Aluminum Sign Lettering

Halo Illumination LED Aluminum Sign Lettering start as your vector artwork and leave the bench as finished, ready-to-mount signage. Material: aluminum alloy material and inner high quality LED lights. Fabrication: high quality aluminum welding. Finish: painted aluminum and backlit LED lights, bright backlit light effect. The face stays solid metal and the glow spills out around the letter, which is why this style is often specified for reception walls and hotel façades.

Material	Aluminum alloy material and inner high quality LED lights
Fabrication	High quality aluminum welding
Finish	Painted aluminum and backlit LED lights, bright backlit light effect
Size & font	We can do very slim backlit LED letters
Fixing method	Back screw pins
Supplied with	1:1 scale mounting template and screw pins, 12V DC CE and RoHS approved transformer
Suitable for	Outside use
Minimum order	No MOQ — any quantity accepted
Shipping service	DHL or UPS express door to door delivery service available
Lead time	Normal 5–7 days on producing and 4 days by DHL or UPS express

Backlit LED Channel Letters 07

Backlit LED Channel Letters 07 are fabricated to your artwork at our Shenzhen workshop, letter by letter. Material: stainless steel and inner high quality LED lights. Fabrication: high quality soldering. Finish: 304 brushed stainless steel and backlit LED lights, bright backlit light effect. The light is thrown back onto the wall behind the letter, leaving the face solid and the outline glowing.

Material	Stainless steel and inner high quality LED lights
Fabrication	High quality soldering
Finish	304 brushed stainless steel and backlit LED lights, bright backlit light effect
Size & font	We can do super slim backlit LED letters
Fixing method	Back screw pins
Supplied with	1:1 scale mounting template and screw pins, 12V DC CE and RoHS approved transformer
Suitable for	Outside use
Minimum order	No MOQ — any quantity accepted
Shipping service	DHL or UPS express door to door delivery service available
Lead time	Normal 5–7 days on producing and 4 days by DHL or UPS express

Halo LED Sign Letters 08

Halo LED Sign Letters 08 are made to order from your own logo file — no stock fonts, no stock sizes. Material: stainless steel and inner high quality LED lights. Fabrication: high quality soldering. Finish: 304 brushed stainless steel and backlit LED lights, bright backlit light effect. The face stays solid metal and the glow spills out around the letter, which is why this style is often specified for reception walls and hotel façades.

Material	Stainless steel and inner high quality LED lights
Fabrication	High quality soldering
Finish	304 brushed stainless steel and backlit LED lights, bright backlit light effect
Size & font	We can do super slim backlit LED letters
Fixing method	Back screw pins
Supplied with	1:1 scale mounting template and screw pins, 12V DC CE and RoHS approved transformer
Suitable for	Outside use
Minimum order	No MOQ — any quantity accepted
Shipping service	DHL or UPS express door to door delivery service available
Lead time	Normal 5–7 days on producing and 4 days by DHL or UPS express

Backlit LED Sign Letters 09

Backlit LED Sign Letters 09 are fabricated to your artwork at our Shenzhen workshop, letter by letter. Material: stainless steel and inner high quality LED lights. Fabrication: high quality soldering. Finish: painted stainless steel and backlit LED lights, bright backlit light effect. The light is thrown back onto the wall behind the letter, leaving the face solid and the outline glowing.

Material	Stainless steel and inner high quality LED lights
Fabrication	High quality soldering
Finish	Painted stainless steel and backlit LED lights, bright backlit light effect
Size & font	We can do very slim backlit LED letters
Fixing method	Back screw pins
Supplied with	1:1 scale mounting template and screw pins, 12V CE and RoHS approved transformer
Suitable for	Outside use
Minimum order	No MOQ — any quantity accepted
Shipping service	DHL or UPS express door to door delivery service available
Lead time	Normal 5–7 days on producing and 4 days by DHL or UPS express

Custom LED Signs

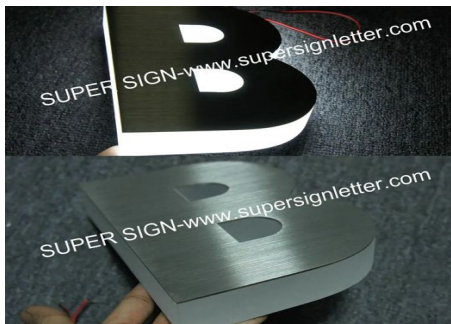

Not every illuminated sign is a standard channel letter. This section covers the builds that get specified when the standard ones will not do: sidelit and edgelit letters that light through a thick acrylic edge, resin-faced letters that hold very slim fonts down to 25mm deep, and double-sided flag signs that read from both directions along a street.

Edgelit LED Letter

Edgelit LED Letter are built around your logo geometry rather than trimmed to fit a catalogue shape. Material: metal front and 30mm thick white acrylic back and inner LED lights. Fabrication: CNC router cutting for acrylic. Finish: painted metal face and lights pass through the side of letters. The face is painted metal and the light passes out through the side of the letter.

Material	Metal front and 30mm thick white acrylic back and inner LED lights
Fabrication	CNC router cutting for acrylic
Finish	Painted metal face and lights pass through the side of letters
Size & font	Any size and font. 20mm and 30mm thick available
Fixing method	Back screw pins
Supplied with	1:1 scale mounting template and screw pins, 12V DC CE and RoHS approved transformer
Suitable for	Outside use
Minimum order	No MOQ — any quantity accepted
Shipping service	DHL or UPS express door to door delivery service available
Lead time	Normal 5–7 days on producing and 4 days by DHL or UPS express

Sidelit LED Letters

Sidelit LED Letters start as your vector artwork and leave the bench as finished, ready-to-mount signage. Material: brushed stainless steel face and 30mm thick white frosted acrylic back and inner LED lights. Fabrication: CNC router cutting for acrylic. Finish: painted metal face and lights pass through the side of 30mm thick frosted acrylic. The light escapes through the acrylic edge, giving a thin line of color around the letter return.

Material	Brushed stainless steel face and 30mm thick white frosted acrylic back and inner LED lights
Fabrication	CNC router cutting for acrylic
Finish	Painted metal face and lights pass through the side of 30mm thick frosted acrylic
Size & font	Any size and font. 20mm and 30mm thick available
Fixing method	Back screw pins
Supplied with	1:1 scale mounting template and screw pins, 12V DC CE and RoHS approved transformer
Suitable for	Outside use
Minimum order	No MOQ — any quantity accepted
Shipping service	DHL or UPS express door to door delivery service available
Lead time	Normal 5–7 days on producing and 4 days by DHL or UPS express

Resin LED Letters

Resin LED Letters are fabricated to your artwork at our Shenzhen workshop, letter by letter. Material: stainless steel side and back, inner LED lights, resin front face. Fabrication: soldering for steel and inner SMD high quality LED lights. Finish: polished or painted stainless steel return side. Light leaves through the acrylic face, so the letter reads as a solid block of color after dark.

Material	Stainless steel side and back, inner LED lights, resin front face
Fabrication	Soldering for steel and inner SMD high quality LED lights
Finish	Polished or painted stainless steel return side
Size & font	We can do very thin and slim fonts, minimum depth size is 25mm
Fixing method	Back screw pins
Supplied with	1:1 scale mounting template and screw pins, 12V DC CE and RoHS approved transformer
Suitable for	Outside use
Minimum order	No MOQ — any quantity accepted
Shipping service	DHL or UPS express door to door delivery service available
Lead time	Normal 5–7 days on producing and 4 days by DHL or UPS express

Double Sided Flag LED Signage

Double Sided Flag LED Signage start as your vector artwork and leave the bench as finished, ready-to-mount signage. Material: metal profile and inner LED lights, double-sided acrylic. Fabrication: high quality soldering for metal profile. Finish: lights pass through the double-sided acrylic.

Material	Metal profile and inner LED lights, double-sided acrylic
Fabrication	High quality soldering for metal profile
Finish	Lights pass through the double-sided acrylic
Size & font	120mm – 160mm deep
Fixing method	Wall mounting
Supplied with	1:1 scale mounting template and screw pins, 12V DC CE and RoHS approved transformer
Suitable for	Outside use
Minimum order	No MOQ — any quantity accepted
Shipping service	DHL or UPS express door to door delivery service available
Lead time	Normal 5–7 days on producing and 4 days by DHL or UPS express
