- 30% deposit in advance, 70% balance after production is finished.
- Delivery: Delivered to the buyer's own forwarder, or shipped by air, by sea, or by DDP truck or train.

Eye Massager

3 models in this category

Steam Eye Massager

A reusable eye mask with heat and cold therapy functions, designed to relieve eye fatigue, reduce puffiness, and soothe dry eyes. The 3D wrap design with adjustable Velcro straps fits most face shapes and provides a secure, comfortable seal. Powered by a 3.7V, 500mAh rechargeable lithium battery, it delivers up to 120 minutes of continuous operation per charge. The Type C charging port accepts

Material	ABS
Size	8.27*4.33*2.76 inch
Unit Package Box	38.5*3.5*17.5cm
Master Carton Box	60PCS/CTN; 53*32*51CM
Rechargeable Li-battery	3.7V, 500mah
Charging Slot	Type C

Electric Hot Cold Eye Massager : AMJ-EM02

A dual-mode eye massager with interchangeable hot and cold gel pads, designed to relieve eye fatigue and reduce eye edema. The 3D wrap design with adjustable Velcro straps ensures a secure fit across different face shapes. A magnetic power supply allows the control unit to detach for easy cleaning or storage. The device runs on a 3.7V, 500mAh rechargeable battery, delivering up to 120 minutes of

Foot Massager

8 models in this category

Air Compression Boots

A full-leg air compression device that applies sequential pressure from the upper thighs down to the feet using inflatable airbags. It supports blood flow, reduces swelling and muscle fatigue, and aids recovery after physical activity or long periods of standing. Designed for daily use, it delivers a professional-grade therapy experience at home. For a buyer, this is a ready-to-ship SKU that solves

Battery Capacity	2900mAh
Massage Modes	12
Pressure Range	60–270mmHg
Timer Settings	15–60 minutes
Compression Pattern	Sequential from thigh to foot
Power Source	Built-in rechargeable battery

Leg Foot Massager With Air wave Heating Vibrating

A full-leg air compression massager designed to relieve fatigue in the calves, shins, and feet after long hours of standing, walking, or sitting. It uses three simultaneous therapies—air compression, heat, and vibration—to improve circulation, reduce swelling, and ease muscle tension. The unit features a three-chamber air system that inflates and deflates rhythmically to mimic a deep-tissue

Power Supply	110–240V, Plug and Play
Rated Voltage & Power	12V/30W
Air Chambers	3
Heat Levels	3
Intensity Levels	5
Control System	4 buttons with LED display

Foot Spa Massager with Red Light Therapy Bubble

A full-featured foot spa massager designed for daily foot care with five integrated therapies: bubble surfing, zone massage, red light therapy, heating mode, and automatic roller massage. It delivers targeted relief to toes, arch, and heel areas, while the 35–47°C heating mode and infrared light support circulation and recovery. For a buyer, this is a ready-to-ship SKU with OEM/ODM

Dimensions	40.2 x 34.2 x 22.7 cm
Heating Temperature	35–47°C constant
Power Input	110–240V
Rated Voltage & Power	220V / 300W
Power Supply	Plug and Play
Foldable Design	Yes

Air Leg Foot Massager with Heating Vibrating

A full-leg recovery device that combines heat, vibration, and multi-chamber air compression to relieve fatigue, improve circulation, and reduce swelling in the lower limbs. Designed for daily use at home, office, or during travel, it wraps around the thighs, calves, and feet with intelligent airbags that inflate and deflate in a rhythmic sequence. The 3-level heat function warms deep tissues,

Control Buttons	4 buttons with LED display

Foot Massager

8 models in this category

Air Compression Foot Massager

A full-coverage foot massager with air compression, vibration, heating, and Shiatsu massage functions. The device wraps the foot and lower leg in a soft PU leather shell with an internal airbag system that applies pressure in a sequence mimicking human hands. It includes a pure copper motor for consistent performance and a smart timer with auto shut-off at 5, 10, 15, 20, 25, or 30 minutes.

Material	ABS+PU Leather+ Cloth+Pure copper motor
Size	55*18*19CM
Rated Voltage&Power	12V/24W
Power supply	Plug and Play, 110~240V
Package included	One Device; 1 pcs of one-meter Power adapter
Model	Air Compression Foot Massager

Shiatsu Foot Massager with Heating Air Pressure

A foot massager that delivers deep Shiatsu kneading and 360° airbag compression with adjustable heating from 20 to 40 degrees Celsius. The touch screen interface allows control of nine intensity levels and a 15-minute auto shut-off timer.

Built with a pure copper motor for consistent performance and a durable ABS and mesh cloth body, it operates on 110~240V power with a standard plug for EU, US,

Material	ABS+Mesh Cloth+Pure copper motor
Size	13.39*12.60*4.72 inch
Unit Package Box	34*38*15cm by Color Box
Master Carton Box	10PCS/CTN; 77*40*70CM
Rated Voltage&Power	220V/40W
Power supply	Plug and Play, 110~240V

Foot Spa Massager: AMJ-FM04

A foldable foot spa with a vibrating bubble surf system, infrared therapy, and a constant temperature foot bath. The unit measures 40.2 x 34.2 x 22.7 cm and features a foot roller design for targeted pressure relief. Built for home or office use, it runs on 220V/300W with a universal plug adapter (110~240V). The compact unit folds flat for storage and includes a one-meter power adapter for

Hand Massager

1 models in this category

Hand Massager With Air Compression Heating

A portable hand massager that combines air compression, acupressure, and heat therapy to relieve hand, wrist, and tendon-related discomfort. It uses inflatable chambers to apply even, human-like squeezing pressure across the palm, fingers, and wrist, while targeting reflex points with acupressure. Three heat levels (low, medium, high) raise temperature to 42–46°C to improve circulation and ease

Massage Technology	Air compression, acupressure, zone massage,
Heat Levels	3 (low, medium, high)
Heat Range	42–46°C
Air Pressure Levels	5
Battery Capacity	2000mAh
Charging Port	Type-C

Knee Massager

2 models in this category

Knee Massager with Infrared Light Heating Vibrating

A targeted therapeutic device for knee joint care, combining infrared heat, vibration massage, and red light therapy in a single unit. Designed to relieve pain from arthritis, sports injuries, or daily strain, it supports long-term joint health by improving circulation, reducing stiffness, and promoting tissue recovery. The wireless, rechargeable design fits most knee sizes and operates via

Therapy Types	Infrared light, carbon fiber heating, vibrat
Battery Capacity	2200mAh
Battery Duration	2 to 3 hours continuous
Charging Port	Type C

Massage Gun

10 models in this category

A black handheld massage gun with a large circular head that has a red and blue light ring. It includes a carrying case, a control dial with three buttons, and several interchangeable massage heads.

Hot Cold Massage Gun

A percussion massage gun with a dual hot and cold therapy function, built around a pure copper brushless motor and a touch-screen interface. The device delivers 2300 to 3200 percussions per minute across three intensity levels, with a metal massage head designed for heat and cold application. It features a 2400mAh rechargeable battery, a one-meter power adapter in EU/US/AU/UK standards, and

Material	ABS+Metal+Pure copper motor
Size	26*24*7CM
Unit Package Box	33*25*13cm by Color box
Master Carton Box	10sets/carton, 13kg, 50*35*48cm
Rated Voltage/ Power	11.1V
Rechargeable Li-battery	2400mah

A compact, black, T-shaped massage gun with a spherical head. It comes with a carrying case, a control dial, and several interchangeable heads.

Mini Metal Massage Gun Aluminum Alloy

A pocket-sized percussion massager built inside a full aluminium alloy shell instead of the moulded ABS body most mini guns use. The T-shaped housing weighs about 0.5 pounds and runs a brushless motor at up to 3200 percussions per minute, so it delivers real deep-tissue percussion in a unit that still fits a gym bag. For a buyer, this is the model that lets you sell a metal-body massage gun at a

Motor	Brushless
Max Percussion Rate	3200 percussions per minute
Massage Heads	4 (round, bullet, flat, fork)
Noise Level	Below 45dB
Battery Run Time	6 hours continuous
Net Weight	About 0.5 pounds

A black handheld massage gun with a large, rounded head. It includes a carrying case, a control dial, and several interchangeable heads.

Brushless Muscle Massager

A compact percussion massager with a brushless motor, LCD touch screen, and 20 intensity levels for precise muscle targeting. Built with ABS, silicone, and EVA materials, it measures 11.5 x 7.5 x 7 cm and weighs 105 grams. The device delivers 1200 to 3200 rpm of rotational speed and includes six interchangeable massage heads. A 350mAh rechargeable battery provides 3 to 4 hours of continuous

Material	ABS+Silicone+EVA
Size	11.5*7.5*7cm, 105g
Unit Package Box	ABS+Silicone+EVA
Master Carton Box	100pcs/carton, 19.5kg, 47.5*39.5*58cm
Rated Voltage/ Power	5V/3W
Rechargeable Li-battery	350mah

A silver and black handheld massage gun with a large, multi-faceted head. It includes a carrying case, a control dial, and several interchangeable heads.

Percussion Massage Gun with Heart Sensor Calories Co

A full-size percussion massage gun featuring a brushless motor, heart rate sensor, body temperature sensor, and an LCD touch screen that displays real-time calorie burn, heart rate, and battery percentage. The unit runs for 6 to 8 hours on a single 5200mAh charge and includes eight interchangeable massage heads. Designed for recovery and performance monitoring, it supports workout tracking

Material	ABS+PP+Pure copper motor+Al
Size	21.2*24.4*5.5cm, 1.1kg
Unit Package Box	35*24*11cm by Case carry bag, 2.5kg
Master Carton Box	10pcs/carton, 19kg, 60*37*50cm
Rated Voltage/ Power	DC 25.2V/25~30WW
Rechargeable Li-battery	5200mah

Massage Gun

10 models in this category

Pressure Sensor Massage Gun: AMJ-MG04

A pressure sensor massage gun with a brushless motor and LCD touch screen that adjusts intensity automatically based on the pressure applied. The AMJ-MG04 delivers 16 levels of intensity and includes 12 interchangeable massage heads, allowing precise targeting of muscles during warm-up, recovery, or trigger-point work. The unit runs on a 2500mAh rechargeable battery, charges in 2 hours, and

Material	ABS+PP+Pure copper motor
Size	32*22*10CM
Unit Package Box	35*25*8cm by Color box
Master Carton Box	10pcs/carton, 15kg, 58*39*40cm
Rated Voltage/ Power	16.8V/24W
Rechargeable Li-battery	2500mah

Rolling Massager Red Light

A hands-free rolling massager with eight independent rollers and integrated 830nm red light therapy. It eliminates the need to grip tightly during use, allowing users to apply pressure through body weight alone. The rollers move smoothly along the upper back, lower back, hamstrings, calves, and glutes, mimicking professional kneading. Combined with red light at 830nm, it reduces inflammation,

Roller Count	8 independent rollers
Red Light Wavelength	830nm
Speed Levels	6 (203rpm, 239rpm, 268rpm, 297rpm, 332rpm, 3
Battery Capacity	4000mAh
Battery Voltage	7.4V
Input Voltage	5V

Hot Cold Massage Gun Foldable

A foldable percussion massage gun with a button control system and a pure copper motor, designed for compact storage and targeted muscle relief. The unit features nine intensity levels and ten interchangeable massage heads, allowing users to adjust pressure and head shape for different muscle groups. The foldable design reduces the overall length by half when not in use, making it easier to store in

Material	ABS+PP+Pure copper motor
Size	5.91*5.51*1.97inch
Unit Package Box	23*19*7cm by Color box
