About the company

TECHOM ELECTRONICS CO., LTD is a manufacturer and exporter with over 25 years of professional experience. We are an ISO 9001:2015 certified organisation specialising in the research, development and manufacture of consumer electronics such as smart remote controls, aroma diffusers and outdoor energy storage power supplies, with our factory located between QingXi Town, Dongguan and XiangAn Industrial Park, Xiamen.

Our company in XiangAn Industrial Park covers more than 30,000 square metres and houses more than 200 employees. We are a comprehensive, privately owned high-technology enterprise that integrates whole-system research and development, whole-industrial-chain production, domestic and overseas sales, and all-round services for all kinds of wireless intelligent terminals.

Manufacturing

From the beginning the company has run a scientific quality control system and a rigid inspection procedure, strictly implementing ISO 9001. Several dust-free automatic production lines have been established, and we provide systematic and integrated solutions ranging from design, manufacturing and assembly to after-sales services.
