

Control Panel Datasheet

Control modes, key count, dimensions, HTS code and shipping data for the wired panel range.

LCD Fan Coil Control Panel

The base wired control panel: a six-key backlit LCD room unit in a 163 x 45 x 21 mm ABS housing that covers fan-coil control, Cb thermostat, proportional plus integral control, electric and water heating control, three-wire systems and 9-10 V control.

Keys	6
Power	2 x AAA batteries
External dimensions	163 x 45 x 21 mm
Colour	White
Housing material	ABS

Features

Latest smart chip • Memory function • Remote function • LCD with backlight • New fan controller • Passive linkage • Cb thermostat • Proportional plus integral controller • Electric heating controller • Water heating controller • Changes in temperature control • 9-10 V controller • Three-wire system

LCD Fan Coil Control Panel White Face

The white-face version of the wired control panel, shipped into all seven of our export regions. Electrically identical to the base unit, with a different faceplate treatment for projects that specify a lighter room finish.

Keys	6
Power	2 x AAA batteries
External dimensions	163 x 45 x 21 mm
Colour	White
Housing material	ABS
Main export markets	Asia, Australasia, Central and South America, Eastern Europe, Mid East and Africa, North America, V

Features

Latest smart chip • Memory function • Remote function • LCD with backlight • New fan controller • Passive linkage • Cb thermostat • Proportional plus integral controller • Electric heating controller • Water heating controller • Changes in temperature control • 9-10 V controller • Three-wire system

LCD Fan Coil Control Panel Backlit Face

The backlit-face variant, published with its full shipping data: FOB Xiamen, 20 to 30 day lead time and HTS code 8468.90.10 00. This is the version most often quoted directly into an HVAC bill of materials.

Keys	6
Power	2 x AAA batteries
External dimensions	163 x 45 x 21 mm
Colour	White
Housing material	ABS
FOB port	Xiamen
Lead time	20-30 days
HTS code	8468.90.10 00
Dimensions per unit	16.3 x 4.5 x 2.1 cm

Features

Latest smart chip • Memory function • Remote function • LCD with backlight • New fan controller • Passive linkage • Cb thermostat • Proportional plus integral controller • Electric heating controller • Water heating controller • Changes in temperature control • 9-10 V controller • Three-wire system

Export markets

North America, Western Europe, Eastern Europe, Mid East and Africa, Central and South America, Asia, Australasia.
