

PRODUCT FAMILY DATASHEET

Snooker Cues

Small-tip English and Chinese black eight cues, one-piece and 3/4 split, in ash, maple and purpleheart, including handmade grain patterns.

What This Family Is For

Snooker play asks for a smaller tip, a longer taper and a butt that suits the traditional grip. The cues in this family are published with their tip diameter, their split format and the wood of the forearm, including the handmade patterned cues that are made in small numbers rather than pressed out of a line.

Products In This Family

Product	Group	Summary
Spot factory direct sale billiard cue single integrated pool cue snooker general cue small tip cue	Snooker cue	Small tip, one-piece, built for Snooker play.

Minimum order quantity	300 pieces, as stated on the source listing
Lead time	Not published on the source listing

Figures are reproduced from the manufacturer's published listings and may be revised. Rows reading 'not published' are figures the source listing does not publish; they are confirmed in writing rather than estimated. Confirm the current revision with your quotation.

Why Buyers Choose This Range

- Tip diameters published down to 9.5 mm and 10 mm for small-head play
- One-piece, 3/4 and 1/2 formats separated instead of pooled together
- Named woods including ash, maple and purpleheart
- Handmade pattern cues published separately from stock models
- Cue cases and boxes available from the same factory in the same carton

Problems It Solves

- Small-tip cues bought by photograph arrive with pool tapers and play long
- Handmade and machine-finished cues get mixed in the same shipment
- A club buys one-piece cues and then cannot store or transport them
- The ferrule splits because the tip fitted was sized for an American shaft
- Wood grain shown in the listing turns out to be a printed decal

Who It Is For

- Snooker clubs and English billiards rooms
- Distributors in markets where small-tip play dominates
- Collectors and pro shops buying handmade patterned cues
- Academies standardising on one tip size across a room
- Brand owners building a snooker line alongside a pool line

Application Scenarios

- English snooker clubs replacing house cues
- Chinese black eight rooms where small tips are standard
- Pro shops selling handmade cues as a graded upsell
- Tournament rooms needing consistent tip sizes
- Export mixes combining snooker and pool cues in one order

Materials

- The source listing names no material for this item, so none is claimed here
- Material substitutions are raised before production rather than after arrival
- Where a material matters to your market, confirm it in writing with the order

Manufacturing Process

1. Ash, maple or hardwood selected for grain
2. Shaft tapered to the small-tip profile
3. Splice and pattern work cut where the model carries it
4. Joint or through-cue construction completed
5. Ferrule and tip fitted at the published diameter
6. Inspected, then cased or packed for shipment

Customisation Options

- Logo printed on the case and the packing, per the source FAQ
- Packing customised to retail, counter or bulk supply
- Colour options where the product publishes them
- Sample produced and approved before the production run
- Low minimum order quantity, with sample orders accepted

Certification Standards

Production follows . Certificates are sent per product on request.

Questions Buyers Ask

Which tip sizes suit snooker and Chinese black eight?

The small-tip cues here are published between 9.5 mm and 11 mm. Chinese black eight rooms commonly play at the larger end of that band and English snooker at the smaller end, but the figure to order against is the one on the product page.

Are the handmade cues one-off pieces?

The handmade pattern cues are produced in small numbers rather than as one-off commissions. Grain and pattern vary between individual cues because the wood does, which is stated on those pages rather than hidden.

Can a one-piece cue be shipped internationally?

Yes, in a rigid tube or case. A one-piece cue cannot be shortened for freight, so packing for it is quoted with the cue rather than assumed.

Do snooker cues come with a case?

Cases are a separate family on this site and can be packed with the cue. Which case fits which cue is confirmed by email against the joint format.
