

SHENZHEN UNIQUE INDUSTRIAL CO., LTD

Bluetooth Talking Smart Watches Datasheet

Five models that take and place calls on the watch itself, from a 1.32 inch zinc alloy round case to a rugged 2.0 inch outdoor build with a flashlight.

Trade terms: minimum order 3,000 pcs per model; samples 1-3 working days after payment; bulk 20-25 working days after deposit; warranty 12 months excluding man-made damage. All specification values are copied from the factory specification sheet. Values marked TBC are not published by the factory and are confirmed in writing before an order. Certifications are stated as held or pending; the ECG platform's CFDA and FDA medical certification is pending, not granted.

Why buyers specify this group

A genuine call path. Each model lists pick up, dial, call log, contacts and call back rather than notification relay alone.

Four case styles from one supplier. Round, square, metal and rugged bodies share a supplier, a QC process and a packing standard.

Voice control on three models. AI voice assistants on the 1.39 inch, NX23 and T32S models reach phone features from the wrist.

Published chipsets. RTL8763EWE, RTL8763E, Realtek 8762D and Jieli audio are named on the specification sheets.

BLUETOOTH TALKING SMART WATCHES

1.39 Inch HD Display Bluetooth Talking SpO2 Heart Rate BP Monitor Smart Watch

Round Bluetooth calling watch with an AI voice assistant and a 1.39 inch 360x360 display

CPU	RTL8763EWE
Screen	1.39 inch HD 360x360 pixel
Screen cover	2.5D high hardness curved glass
Bluetooth	5.2
Heart rate sensor	LC11S
G-sensor	STK8321
Battery	210mAh polymer battery
Charging	Magnetic charger
Full charge time	2 hours
Battery life	3-5 days
System support	Android 5.0 or above, iOS 9.0 or above
Material	Body PC+ABS, strap silicone gel
Watch size	46.4 x 11mm
Weight head plus strap	35g
App	GloryFit
Water resistance	TBC - confirmed in writing before order

BLUETOOTH TALKING SMART WATCHES

Unique Smart Watch Answer Make Call Water-Resistant Heart Rate Blood Pressure Smartwatch

1.85 inch square calling watch rated IP67 with pool swimming support and a 230mAh battery

CPU	RTL8763E
RAM and ROM	ROM 128MB
Screen	1.85 inch HD TFT, 240x284 pixels
Screen cover	2.5D high hardness glass
Heart rate sensor	HX3605
Bluetooth version	BLE 5.0
Battery	230mAh, 3.8V lithium polymer
Battery life	About 3-5 days
Material	PC with injection sprayed matte coating
Charging	Magnetic pin charging
Buttons	One
Strap	70 degree hardness silicone, 22mm width
Body size	45.5 x 40.2 x 10.6mm
Water resistance	IP67, pool swimming supported
App	TBC - confirmed in writing before order

BLUETOOTH TALKING SMART WATCHES

NX23 Outdoor Flashlight AI Assistant Bluetooth Calling Health Sport Smartwatch

Rugged 2.0 inch outdoor calling watch with an LED flashlight, IP68 and 100+ sport modes

Model: NX23

Screen	2.0 inch IPS, 320x385 pixels
Calling	Bluetooth calling on the wrist
Flashlight	LED strong light
Water resistance	IP68
Health sensing	Real time heart rate, blood oxygen
Sport modes	100+
Voice	AI assistant
CPU	TBC - confirmed in writing before order
Battery capacity	TBC - confirmed in writing before order
Battery life	TBC - confirmed in writing before order
Watch size	TBC - confirmed in writing before order
Weight	TBC - confirmed in writing before order
App	TBC - confirmed in writing before order

BLUETOOTH TALKING SMART WATCHES

Bluetooth Calling SpO2 Body Temperature HR Monitoring Smart Watch With Intelligence Voice Assistant

T32S dual mode calling watch in zinc alloy with body temperature sensing and a 1.32 inch 360x360 display

Model: T32S

Bluetooth chip	Realtek 8762D
Audio chip	Jieli
Battery capacity	260mAh
Screen	1.32 inch full touch, 360x360
Heart rate and SpO2 sensor	HRS3300
Water resistance	IP67
BLE version	BLE 5.0
3D accelerometer	ROHM
Material	Zinc alloy and ABS
Battery life	3-6 days daily use
Watch size	260 x 46 x 11mm as published by the factory
App	TBC - confirmed in writing before order

BLUETOOTH TALKING SMART WATCHES

1.508 Inch AMOLED Display GPS Sport Heart Rate SpO2 Monitor Bluetooth Calling Watch

Four constellation GPS sport watch with a 466x466 AMOLED always on display and a 400mAh battery

Screen	1.508 inch AMOLED, 466x466 pixels
Always on display	Supported, low power consumption
Positioning	GPS, GLONASS, Galileo, BeiDou
Calling	Hands free bluetooth calling
Health sensing	Heart rate, SpO2, blood pressure
Sensors	Altitude pressure, compass
Battery	400mAh
Water resistance	IP68
Sport modes	Multi-sport
CPU	TBC - confirmed in writing before order
Battery life	TBC - confirmed in writing before order
App	TBC - confirmed in writing before order
