

Company Profile

Enping Weymic Electronic Technology Co., Ltd · Established 1995 · Enping, Guangdong, China

Who We Are

Enping Weymic Electronic Technology Co., Ltd is an international manufacturer and exporter of wired and wireless microphones, wireless conference system microphones, audio mixers and digital effect units, specialising in product development and tailor-made OEM services for customers.

The company was established in 1995, bringing development, manufacturing, marketing and after-sale service together in one business, with a focus on high-level microphone series products.

Test and Measurement

To ensure product quality the factory uses advanced instrumentation:

Wireless testing	Motorola high-frequency wireless testing instruments
Signal source	HP high-frequency wireless signal source
Analysis	Fourier analysers
Sweep	Frequency sweep instruments
Assembly	Surface Mount Technology (SMT) machine

Product Ranges

Range	Scope
Audio Mixers and Mixing Consoles	Compact analogue mixing consoles from four to twelve channels, all with 48V phantom power and most with USB and Bluetooth playback.
VHF Wireless Microphone Systems	Seventeen single and dual-channel VHF handheld systems, each supplied as a matched receiver and microphone kit.
Dynamic Wired Microphones	Metal-body and moulded-body wired microphones held in finished stock, in cabled, switched and USB variants.
Interview and Shotgun Microphones	Three interview models, including a telescopic condenser and a shotgun condenser, supplied on long-term OEM terms.
Microphone Shock Mounts and Stands	Six shock mount and stand references in metal and plastic, finished in black, silver and gold.
