

Mini Hidden Cameras Datasheet

5 models · The Smallest Bodies In The Range

Five models where size is the whole point. Thumb sized recorders, key fobs, dice, spinners and a bare black box module that fits where a housing will not.

The problem this family solves

Some placements have no host object to hide in. A shelf gap, a vehicle console or a drawer needs the smallest body that still holds a 1080P sensor and a battery.

DVR-1080TIC
Mini Hidden Cameras

Thumb Size 1080P Camera Recorder DVR-1080TIC

The smallest standalone recorder in the catalogue. A thumb sized body shooting 1080P or HD to a micro SD card up to 32GB, with selectable overwrite and the ability to record while charging, which matters because the 380mAh cell alone gives 9 minutes.

Key points

- Records while charging, which turns 9 minutes of battery into unlimited runtime on a power bank
- Selectable overwrite so the card loops instead of stopping
- Selectable FHD or HD to trade detail against card capacity

Module No	DVR-1080TIC
Types	DVR camera
Recording	Continue recording
Resolution	FHD 1080P
Megapixels	3.0 MP
View angle	66 deg
Micro SD Card	Max 32 GB
Battery	380 mah
Continue Recording	9 mins

DVR-1080KEY
Mini Hidden Cameras

Mini Key Fob Night Vision Camera DVR-1080KEY

A car key fob with a 720P camera and night vision, running 160 minutes on a 450mAh cell. It goes in a pocket or on a desk next to a set of keys without reading as equipment.

Key points

- 160 minutes of recording, long for a body this size
- Night vision, which most key fob cameras in this class leave out
- A key fob is the one object that can sit anywhere without explanation

Module No	DVR-1080KEY
Types	DVR Camera
Recording	Continue recording
Resolution	720P
Megapixels	3.0MP
Picture format	JPG
Micro SD Card	Max 32GB
Battery	450mah
Continue Recording	160 minutes

Mini Box Hidden Camera

DVR-1080BOC
Mini Hidden Cameras

Mini Black Box Camera DVR-1080BOC

A bare 1080P recorder module with motion detection and three to five metres of night vision, running three hours on a 650mAh cell to a micro SD card up to 32GB. It has no host object, which is what makes it useful to anyone building the housing themselves.

Key points

- Unhoused module, so it drops into an enclosure you already produce
- Three hours of runtime on battery, more than most bodies this size
- Motion detection and three to five metre night vision as standard

Module No	DVR-1080BOC
Types	DVR camera
Recording	Continue recording
Resolution	FHD 1080P
Megapixels	3.0 MP
View angle	75 deg
Micro SD Card	Max 32 GB
Battery	650 mah
Continue Recording	3hours

DVR-1080DIC
Mini Hidden Cameras

1080P Dice Mini Camera DVR-1080DIC

A dice shaped 1080P recorder with a 230mAh polymer cell and an external micro SD card slot, writing AVI at 1920x1080. It is the smallest novelty format in the range and supports cards up to 32GB.

Key points

- 1080P AVI from a body the size of a die
- External card slot rather than fixed storage
- An object that reads as a game piece on a shelf or a table

Items	Relevant Parameters
Video Format	AVI
Video Coding	M-JPEG
Resolution of Video	1920*1080P
Video Frames	30fps
Play Software	The self-contained program of the operation system or main video play software (Storm Player is recommended)
Support System	Windows; XP; Mac os; Linux
Battery Capacity	High capacity polymer lithium battery, 230mAh
Working Duration	About 60min, full charged within 2 hours
Charging Voltage	DC=5V
Type of Interface	Mini 8Pin USB
Support Memory Card	External Micro SD card

DVR-1080FSC
Mini Hidden Cameras

Fidget Spinner Mini Camera DVR-1080FSC

A working fidget spinner with a 1080P pinhole recorder in the body, running 40 minutes on a 180mAh cell. It is the smallest novelty format in the catalogue and the cheapest way into the mini family.

Key points

- 1080P from a body that spins in the hand
- 40 minutes of recording, honest for a 180mAh cell
- A working spinner, so it survives being picked up and used

Resolution	FHD 1080P
Megapixels	2.0MP
View angle	65 deg
Micro SD Card	Max 32GB
Battery	180mah
Continue Recording	40minutes

Lawful use only. WOWLIVE products are supplied for lawful security and property protection. Laws on recording people, and on recording audio in particular, differ between countries and between rooms in the same building. Recording in places where people reasonably expect privacy, such as bathrooms, changing rooms and bedrooms that are not your own, is a criminal offence in most jurisdictions. Buyers and resellers are responsible for checking the rules that apply where the goods are used and sold, including any import, notification and signage requirements. We will not supply orders intended for unlawful surveillance.
