Machine Selection Checklist

Fill this in before you ask any supplier for a quotation. It is the information we need to confirm a model, and it is the information that stops a machine arriving that does not fit the work.

The Work

Largest part diameter	
Longest part length	
Heaviest part weight	
Thickest material and grade	
Hardest material machined	
One-off work or repeat batches	
Parts per month	

Engine Work (if applicable)

Engine types accepted	
Longest cylinder head	
Largest cylinder block	
Bore diameter range	
Valve seat diameter range	
Heads per month	

The Site

Supply voltage and frequency	
Phase	
Compressed air pressure available	
Floor space and ceiling height	
Lifting equipment available	
Operator experience level	

The Order

Nearest port	
Trade term preferred (FOB CFR CIF)	
Payment term preferred	

Required delivery date	
Manual language required	
Tooling and spares required	

Send the completed checklist to export@xaimc.com or WhatsApp +86 139 0924 4118 and we will come back with the model, the tooling list and the lead time.
