

PRODUCT CATALOGUE

Thrust Roller Bearings

Thrust cylindrical, thrust tapered and thrust spherical roller bearings for heavy axial loads in mill stands, extruders, oil-well swivels and pulp refiners.

Manufacturer	XINFEI INDUSTRY GROUP — founded 1995
Brand	AFA, neutral or customer marking
References in this catalogue	657
Material	GCr15, GCr15SiMn, chrome steel; carburised grades on request
Precision classes	P0 P6 P5 P4 P2
Quality standard	ISO 9001 quality assurance system
Delivery	Stock about 3 days; production about 20 to 25 days
Packing	Wood boxes for heavy items, paper boxes for small parts
Payment terms	L/C, T/T, Western Union, PayPal on small orders
Contact	WhatsApp +86 156 0046 7881 · alina@xinfei-industry.com

Who This Category Is For

Rolling mill rebuilders, plastic extruder OEMs, drilling equipment shops, pulp and paper maintenance teams.

The Problem It Solves

Standard catalogue thrust bearings are often out of stock in large bores, and the imperial TP and T series used on older mill and extruder equipment are hard to source from a single supplier.

Core Technical Advantage

Thrust roller bearings carry a much higher axial load in the same envelope than a thrust ball bearing of the same size, and the tapered thrust design can add up to 40 percent more capacity than cylindrical and spherical bearings with the same envelope dimensions.

Typical Applications

- Rolling mill stands and screw-down units
- Plastic extruders and rubber machinery
- Oil well swivels and rotary tables
- Pulp refiners and paper machinery
- Machine tool tables and vertical spindles

REFERENCE LIST

Thrust Roller Bearings — 657 References

Dimensions and weights below are reproduced from the manufacturing records. Where a value was never recorded the cell is left blank rather than estimated. Send the reference by WhatsApp or email to confirm current stock and price.
