About this range

A chandelier is a volume decision before it is a style decision. This group runs on glass and crystal with copper, iron, fabric and stainless steel hardware, mostly on G9 lamp bases, and the published applications are Home, Living Room, Villa, Lobby, Hotel, Staircase, Bedroom and Bathroom. Every one of them is offered at 3000K, 4000K and 6500K.

Quality control	We run our own quality control department with a professional QC team on the production floor, and a dedicated QC inspects your order and sends you a photo inspection report before shipment.
